

WAGES AND COAL TO GO UP

PULL FANGS IN GARRITY LAW, THEN PASS IT

Five Big Features in Police Bill Lost.

Four of its five major features, the police department reorganization ordinance sponsored by Chief Garrity, slipped through the city council last night with only two votes to spare. The final vote was 38 to 21, with 35 necessary to pass.

The ordinance was passed by a vote of 38 to 21, with 35 necessary to pass. The ordinance was passed by a vote of 38 to 21, with 35 necessary to pass. The ordinance was passed by a vote of 38 to 21, with 35 necessary to pass.

Council Asks Referendum on Rum, 51-10

City council wets demonstrated that national prohibition has not diminished their voting strength yesterday by passing a resolution requesting the legislature to rescind its approval of the eighteenth amendment and submit the prohibition question to a referendum.

It was the first out and out wet and dry test in the council in many months. Ald. Kostner, who, with Ald. Toman, introduced the resolution, declared that "any member who believes in the referendum should vote for this resolution."

PORTABLE HOME TO BREAK GRIP OF HIGH RENTS

Realty Board Chief Launches Project.

The Chicago Real Estate board jumped into the high rent situation last night with a concrete plan to alleviate the crisis at once.

Believing that a master stroke is necessary, the board has taken steps to house suffering tenants in portable homes of their own.

CHICAGO A CITY OF 2,842,000 BY NEWEST FIGURE

Reliable information gathered from various sources shows that the previous estimate of 2,800,000 as the population of Chicago for 1920, as determined by the census, will be slightly increased, the new figure being approximately 2,842,000.

This total, arrived at despite a flat refusal by John J. Gaynor, head of the Chicago census, and his office force to discuss the matter or give any information, is regarded as reasonably accurate, it being practically certain the official figures will not vary more than 2,000 above or below it.

RECTOR BUILDING IS SOLD TO BANK

Name Cafe Made Famous to Be Taken Down.

BY AL CHASE.

Rector's—a name associated with Chicago's gastronomic history for many years—at last is to disappear even from the name plate of the fourteen-story building at the southeast corner of Clark and Monroe streets, which until a few years ago housed Chicago's best known restaurant.

SELLS HOME TO NEGRO FAMILY; BOMB HITS IT

A bomb wrecked the vestibule of the three flat building at 442 East Forty-fifth street last night and smashed eight windows.

The house is occupied at present by the family of Moses Fox. Mr. Fox told the police that he had sold the place to a colored man named Jones a few weeks ago.

U. S. ARBITERS COMPLETE PLAN IN MINE DISPUTE

Labor Member Demands 7 Hour Day.

(By a Staff Correspondent.)

Washington, D. C., March 10.—[Special.]—The commission appointed to adjust the differences between bituminous coal miners and operators which led to last winter's strike completed its report tonight and prepared to submit it to the president before noon tomorrow.

SUFFRAGE WINS IN W. VIRGINIA BY BLOCH VOTE

Senate, 15 to 14, Ends Day of Thrills.

Charleston, W. Va., March 10.—[Special.]—The state senate tonight ratified the Susan B. Anthony suffrage amendment to the federal constitution, 15 to 14, ending a long and hotly contested battle.

CONSUL CALLS U. S. SQUADRON TO TURK COAST

Americans Are Periled by
Massacring Kurds.

BY LARRY RUE.

(Chicago Tribune Foreign News Service.)
(By Special Cable.)
ALEPPO, Feb. 28, via London, March 10.—J. B. Jackson, American consul at Aleppo, today wired the United States state department to send a squadron of warships to Port Alex- andria to save the lives of Ameri- cans in the districts where fierce Kurds and Turks were attacking the French garrison, in many places mas- sacring all Christians regardless of nationality.

American relief workers in Marash, Hama, Urfa, Mardin, Diabekir, and other places are surrounded by bands of Kurds and have been unable to com- municate with the outside world for weeks. They are known to be in seri- ous danger.

It is definitely established the at- tacks are part of an oriental plan to annihilate the Christian population of the Mesopotamian region.

Besiege City of Urfa.
Runners from Urfa, cut off by bands for a month, report the city en- tirely surrounded by 12,000 Turkish troops, Kurds, and Arabs, who are besieging the poorly equipped French garrison of 3,500. The Alindab garrison is similarly situated, and is expecting an attack at any time from the same bands who killed the American Y. M. C. A. secretaries there a month ago. Spies fill the hills.

Marash, a city of 80,000, has been destroyed. The casualties of the French and Turks both are heavy, while more than 10,000 Armenians have been massacred or killed in the Turkish and French bombardments. Ar- menian massacres are reported in the small villages of Funduk, Kishif, Dengeue, and Yenikale, all in the French zone of Anatolia. Massacres are continuing in some places, and per- haps at Marash still. It is understood the Turks and Arabs are planning to make Aleppo the headquarters of joint military operations against the French and British when the peace conference opens, which is expected to be un- derivable, is officially announced.

Aided by Reds.
Recent attacks on British troops by Arabs in Anan, Aboukamel, and Mesopotamia, are a part of the same anti- foreign movement sweeping Turkey, Syria, Afghanistan, Persia, and the Caucasus, and are given support by the bolsheviks.

Twenty-five Christians and Moslems were hanged in Urfa by the Turks, charged with aiding the French. The Turkish government, however, guaran- tees protection to all Christians and, saying the fight merely is anti- French. Thirteen hundred Armenians have joined the French; the rest—over 10,000—have fled to the mountains to avoid repetition of the wholesale massacres at Marash and other places. The entire Armenian population in the French zone is ter- rified. The Urfa attack was led by a former chief of gendarmes whom the French have attempted to arrest for some time. Announcement was made that all the leaders were especially in- censed not to molest Christians un- less assisting the French.

Americans in Zone.
The Turkish government explains the presence of Turks in army uniform lighting the French by the announce- ment that the troops are deserters. News of the Urfa attack was received following reliable secret information from Prince Feisal had arranged with French chiefs and Mustafa Kemal Pasha for support against the French. The prince recently sent a telegram to Mustafa Kemal Pasha, saying to him: "I am ready to fight for you, and I am ready to die for you." Mustafa Kemal Pasha, chief of the Bezzaz tribe near Jerusalem.

The envoys explained the Moham- medans must unite against the common enemy, specifying they could assist in driving the British out of Mesopotamia and the French out of the garrisons in that neighborhood. The chiefs accepted the presents, but refused the flag on the ground the Kurds were slaves to no na- tion, and replied they would fight in arms specified gold, arms, and sup- plies.

From Storm Center of Turkish Massacres

Orphanage of Near East Relief at Marash, Cilicia, Turkey, Where 7,000 Armenians Were Murdered Recently by Turks.

PEACE CHEFS TO SERVE TURKEY AS 'HASH AUX ALLIES'

'Crush Firmly,' Recipe
of M. Venizelos.

LONDON, March 10.—The peace conference spent the day in trying to work out the details of military and naval plans in connection with Turkey, giving particular attention to Armenia. Admiral Beatty, Winston Spencer Churchill, secretary for war, and others were called in to give their opin- ions. Premier Venizelos of Greece was also present and again insisted that the allies should take the sternest measures against the sultan.

Will Control Departments.
The general plan of action was not changed, however, but as a result of the conference it became known today that the military domination at Con- stantinople is likely to take the form of allied military control of certain Turkish government activities, among them probably the war department.

The conference were careful to make clear that this does not mean the tak- ing over of the Turkish government at the outset and would not in the future if Turkey shows an inclination to abide by the terms of the armistice and cease massacres.

Fear New Massacres.
The fears of some that the confer- ence's military demonstration at Con- stantinople would lead to further mas- sacres among the unprotected in Ar- menia and Cilicia have been consid- erably allayed by the attitude of M. Venizelos. He is represented as being con- fident that a stern show of military force would bring the Turk into line.

To this end the council is believed to have ordered certain important points in European and Asiatic Turkey oc- cupied by allied naval and military forces. It seems doubtful whether any direct punitive action against Mustafa Kemal Pasha, the Turkish commander in Asiatic Turkey, has yet been decided on, but it seems likely that such ac- tion is to be held in abeyance until the effect of the occupation of the strategic points indicated above is observed.

Greeks May Pursue Kemal.
Should a decision be made to round up Kemal and his forces, however, it is believed the task will be entrusted to the Greek army now in Smyrna and the surrounding district, whose ser- vice M. Venizelos, the Greek premier, is said to have offered the council on behalf of his government. This army is estimated at 80,000 men, while it is thought Kemal's forces do not exceed 40,000.

WASHINGTON NEWS —IN BRIEF—

BY ARTHUR SEARS HENNING.
(Washington Bureau of The Tribune.)
WASHINGTON, D. C., March 10.

The foreign relations committee be- gan its investigation of the fitness of Bainbridge Colby to be secretary of state by questioning Gen. Marlborough Churchill, chief of military intelligence, in secret session.

The senate marked-time in the peace treaty fight today while all factions held war councils to lay final plans for the crucial struggle beginning to- morrow. Compromises were swept into the discard and ratification now hinges almost on the possibility, ad- mittedly remote, of sufficient Demo- crats defying President Wilson and voting for the treaty with the Lodge program attached.

A BOND ISSUE to raise revenue to provide bonuses for soldiers would mean a panic, Republican Floor Leader Mondell told the house ways and means committee.

INDEPENDENT packers opposed legis- lation for the regulation of the packing industry before the house committee on agriculture on the ground that it would injure their credit and destroy their business.

SEVEN conscientious objectors have yielded to discipline and been released within the last two weeks, according to a statement issued today by the American Federation of Labor, which has been conducting a campaign for the release of political prisoners from dis- ciplinary barracks.

PERMANENT government operation of merchant ships was strongly con- demned by John Barton Payne, retir- ing chairman of the shipping board, before the senate commerce committee today.

WETS SWAMPING VERMONT TOWNS

Montpelier, Vt., March 10.—Advo- cates of license added nearly 100 towns, dry a year ago, to the wet column in town meetings held recently. Reports to the secretary of state from 233 of the 247 cities and towns showed that 125 towns voted yes, 101 voted no, two were tied on the question, and four took no vote. Last year thirty towns voted license.

The aggregate vote of the towns re- porting to date shows a falling off of more than 8,000 votes on the dry side, with the license supporters maintain- ing their numbers of a year ago. The vote cast this year was: Yes, 15,553; no, 10,467. Last year the same cities and towns gave: Yes, 15,781; no, 19,274.

Strikes and Threatened Strikes Upset All France

PARIS, March 10.—Numerous strikes are reported in dispatches from the provinces, especially in the build- ing trades at Aurillac, Auch, and Angers. At Chalons sur Saone the em- ployees in the gas works have declared their intention of striking. The situa- tion in the Pas de Calais coal strike is unchanged.

SHANGHAI, March 7.—[By the As- sociated Press.]—War has begun in Honan province because of the at- tack of the Peking government to ap- point Wu Kwang-Hsin provincial govern- or to supplant Chao-Yi, whose forces are opposing those of Wu Kwang-Hsin.

COLBY RECORD DISSECTED AT SENATE CLINIC

Seek Light on Fitness
for Lansing Shoes.

(BY A STAFF CORRESPONDENT.)
WASHINGTON, D. C., March 10.—[Spe- cial.]—Behind closed doors the senate foreign relations committee today be- gan investigation of the fitness of Bainbridge Colby to be secretary of state.

Rumors few thick when Gen. Marl- borough Churchill, chief of military in- telligence, was summoned as the first witness. Gen. Churchill brought with him a large bundle of documents, said to include papers seized from private files and confidential reports of activi- ties of the military intelligence agents during the war.

Delve Into Colby Qualifications.
Gen. Churchill is said to have fur- nished the committee with a long list of names of persons who may have knowledge of Mr. Colby's qualifica- tions. The list contains the names of officers in the intelligence division and some civilians, it was stated.

Members of the committee bound themselves by solemn oath not to re- veal any information regarding today's proceedings, and efforts of their col- leagues and newspaper men to pen- etrate the mystery were unavailing.

In "Embarrassing Position."
One senator said that Mr. Colby had been placed in "an exceedingly em- barrassing position," but insisted that the evidence so far submitted did not sus- tain allegations that had been made.

Ohio Ballot Cleared of "Dark Horse" Candidates

Columbus, O., March 10.—Steps to clear the Democratic primary ballot of all names except that of Gov. James H. Cox were taken today. Former Gov. James E. Campbell withdrew his name from the ballot, but consented to delegates to the national convention naming him second choice.

S. E. Golden, secretary of the Demo- cratic state committee, filed a protest against James O. Monroe, Chicago. James R. Garfield, the second choice candidate for Gen. Wood delegates on the Republican ballot, is expected to withdraw, leaving only Wood and Harding on the preferential ballot.

MIDWIFE FREED OF CHARGE.
On recommendation of a coroner's jury Catherine Schmidt, a midwife, was re- leased yesterday from police custody after being held for two weeks in connection with the death of Mrs. Grace D. Fay, 35 years old, 1314 Monroe avenue, who died Feb. 24, supposedly of a criminal operation.

Like two peas OUR Hart Schaffner & Marx tuxedos and those of the finest custom-tailors are, as the old saying goes, as alike as two peas. But there is a difference; it's the price—the custom tailor charges double.

Victims of the Turks

When the French forces were com- pelled recently to retire from Marash, Cilicia, in western Armenia, the Turks are reported to have swept into the town and murdered 7,000 Armenians. The refugees in the Near East Relief orphanage shown in the picture un- doubtedly suffered with the others. This latest outrage by the Turks, com- ing just as the Turkish peace treaty was under consideration, has resulted in stiffening the terms of the allies. It is reported that reinforcements of British and French troops have been sent to Turkey.

GEMS TO AID VICTIMS.
New York, March 10.—[Special.]—Mrs. Andrew D. White, widow of the former president of Cornell university has offered for sale diamonds valued at \$40,000 to aid the (Chicago Tribune) Metropolitan committee of the Near East Relief to Succor Starving and Persecuted Armenians.

CECIL DECLARES LEAGUE WILL NOT DEMAND ARMIES

COPENHAGEN, March 10.—Whether joining the league of nations is synonymous with the duty of keeping up a standing army to be placed at the disposal of the league to enforce the league's decisions has been for a long time a burning question in Denmark and Norway. The democratic majority, against the protests of the con- servatives in both countries, read the treaty as giving a member of the league full right to abolish its army and navy.

**Declare Independence of
Egypt; Want British Out**
LONDON, March 10.—Fifty-two members of the Egyptian legislative assembly met recently at the house of Said Zaidouli Pasha, who headed the Egyptian mission to the peace confer- ence, and adopted a resolution pro- claiming the independence of Egypt and the Sudan, according to a dispatch from Cairo. The resolution also de- nounced the British protectorate.

ULSTER DECIDES TO END FIGHT ON HOME RULE BILL

Now It's Up to Britain
and South.

BULLETIN.
DUBLIN, March 10.—At a meet- ing today of the Irish Unionist al- liance a resolution was passed "re- affirming the determination of the southern Unionists to oppose home rule by every means in their power."

BY JOHN STEELE.
(Chicago Tribune Foreign News Service.)
(By Special Cable.)
BELFAST, March 10.—Upon the ad- vice of Sir Edward Carson, the Ulster Unionist council today came to the momentous decision not to oppose the Irish home rule bill, while accepting no responsibility for it. It also re- solved not to press for the inclusion of the entire nine counties in geographical Ulster within the scope of the northern parliament.

The council adheres to the view that the union still is the best policy, but regards the present bill, giving a sepa- rate parliament to the north, as pre- ferable to the 1914 act, which proposed to establish one parliament for the country in Dublin.

Carson Presides at Meeting.
Sir Edward Carson presided at the meeting. Since the meeting of the council on Friday a committee had been at work to see whether it was possible to come to an agreement on the vexed question whether six or nine counties should constitute the area sub- ject to the Ulster parliament, but it found that agreement was impossible.

Representatives of Donegal, Mon-aghan, and Cavan were determined to be included with the rest of Ulster, while those representing the other six coun- ties, while sympathizing with the three counties mentioned, were convinced by statistics that a nine county parlia- ment would not give a working ma- jority to the Unionists and might pos- sibly, before long, result in a National- ist majority.

An acrimonious discussion took place on the subject of eventual- ly, on division, a resolution of the de- legates of the excluded counties was de- feated.

Calls Bill Ulster Victory.
BELFAST, March 10.—[By the As- sociated Press.]—Sir Edward Carson, Ulster Unionist leader, in a speech to- day, said that if the present home rule bill passed, Ulster won. The Ulster- ites would be lucky, he added, in get- ting without fighting that for which they had covenanted to fight.

If the bill had included the whole of Ulster, said Sir Edward, they would have had to oppose it tooth and nail; then, if they were rejected, the 1914 act would come into force.

Cavalry Lands in Dublin.
DUBLIN, March 10.—Two steamers landed at Dublin Tuesday night, the Freeman's Journal says today, with considerable forces of cavalry and in- fantry and a number of field guns. These later were entrained, it is said, for southern provincial depots, includ- ing Kilkenny, Waterford, and Curragh.

HOUSTON HINTS 9 BILLION DEBT INTEREST DELAY

Favors 3 Year Breath-
ing Spell.

Washington, D. C., March 10.—An- nouncement by Secretary Houston that no further loans would be made to the allies was believed tonight to indi- cate the adoption by the treasury of the policy favored by the debtor nations of deferring interest payments for the next three years or more.

Under authority granted by congress to extend \$10,000,000,000 credits to the allied nations, the treasury has made loans amounting to \$9,659,574,649.

Favor 3 Years' Delay.
Treasury officials said it would seem advisable to permit the allies to post- pone interest payments for at least three years.

With the interest on the loans com- puted at 5 per cent, the total due the United States yearly is about \$470,000,000, an enormous sum for the war- weary countries to pay at present.

America's chief debtors are Great Britain, with \$4,277,000,000; France with \$3,947,574,777, and Italy with \$1,421,338,888.

Soldiers' Bonus Is Problem.
Secretary Houston will appear before the house ways and means committee tomorrow in connection with the agita- tion for a bonus to soldiers. In this connection, it is understood, the treas- ury will oppose further bond issues, either for reducing taxation or paying bonuses to soldiers. It will adhere to its plan to create from taxation a sink- ing fund of \$250,000,000 annually with which to buy in existing Liberty bonds and stabilize the bond market.

Former Secretary McAdoo was in Washington today and had luncheon with President Wilson and talked with Secretary Houston.

Some treasury officials believe un- necessary restrictions may be removed from business by abolishing the ex- cess profits taxes in favor of other means, possibly an increase in the normal taxes on corporations and in the upper brackets of the surtaxes on personal incomes.

CAILLAUX JOINED LAIR OF PACIFISTS, WITNESSES AVER

PARIS, March 10.—The two wit- nesses who were heard today at the trial of former Premier Joseph Caillaux on the charge of intriguing to promote a dishonorable and premature peace, with Germany were Charles Roux, counselor of the French em- bassy at Rome, and Commandant Neblensme, former military attaché at the embassy.

Their testimony as to the activities of the accused in Italy, in 1918, was of such a character that the ex-premier appeared considerably perturbed at several points and he gave signs of weakening from the strain of the proceedings. He recovered his poise ul- timately, however.

Mr. Roux swore Caillaux's relations in Italy were confined to pacifists, the former premier associating exclusiv- ly with men at present under indict- ment on the charge of having had in- telligence with the enemy.

The witness added that Caillaux was not a victim of imprudence but had chosen his suspected companions ad- videdly, which was the reason the em- bassy had not warned him.

BRITTEN SEES GROWING CLOUD IN BONE DRY SKY

Wet Congress After Next Election, His Forecast.

Washington, D. C., March 10.—[Special.]—The next congress will be a wet congress, Representative Britten of Chicago told Representative Volstead today in urging him to arrange for a hearing on his bill providing for a per cent beer and 14 per cent wine at discretion of the states.

"The political party which fails to give heed to the desires of more than twenty millions of people will go down in defeat at the next election," said Britten tonight. "Mr. Volstead admitted that there was much discontent in the nation over his prohibition enforcement act and said that congress probably would enact legislation which would destroy absolute prohibition, but that he would fight it in every possible way."

"Worker Wants His Beer."

"I called his attention to the fact that I had received telegrams and letters from presidents of great corporations employing thousands of men, and from presidents of public utilities corporations in states like Iowa, and also that professional men, doctors, lawyers and others in all parts of the union are in favor of granting legislation which will give the worker, as well as the employer of labor, a drink of beer or a glass of light wine at his home, when he desires it."

Ruling Expected in June.

Determination of the validity of the prohibition amendment and parts of the enforcement act now rests with the Supreme court. Arguments were completed today in appeals brought by the Kentucky Distillers and Warehouse company following the presentation yesterday of the Rhode Island and Massachusetts cases. A decision by the court is expected by court officials before adjournment early in June.

New York Kicks for "Kick."

Albany, N. Y., March 10.—A bill defining intoxicating beverages as those containing more than 3 1/2 per cent of alcohol by weight was introduced in the legislature today by Assemblyman Maurice Bloch, Democrat, of New York. The measure, he said, is "Gov. Edwards' New Jersey leader James J. Walker introduced in the senate a bill to provide for local option relative to the manufacture and sale of beer in the various localities. Senator Walker last week introduced a bill to legalize the manufacture and sale of such beer."

Rock Island Pool Hall Raided.

Rock Island, Ill., March 10.—Leroy C. Stringer, pool hall proprietor, arrested three employees under bonds aggregating \$45,000 on the charge of making and selling beer containing more than one-half of 1 per cent of alcohol.

Bureau Smuggler Shot.

Van Buren, Mo., March 10.—An unidentified man was shot and killed here early today by a customs officer, who caught him smuggling thirty gallons of alcohol across the Canadian border. Another smuggler escaped.

Shooting in New York.

New York, March 10.—The first shooting on New York's water front in riots over liquor smuggling occurred tonight when a Negro longshoreman was slightly wounded by a customs guard. The Negro was fleeing with whisky taken from the steamer Morro Castle from Havana, the guard said. A policeman who caught the fleeing Negro found no liquor and arrested the guard on a charge of felonious assault.

Famous Prussian School for Officers Closes Doors

BERLIN, March 10.—The chief training school for cadets at Grossschlotheide, Prussia, through which most of the officers of the German army passed, was closed today in accordance with the terms of the peace treaty.

Field Marshal von Hindenburg telegraphed to the cadets that the service they had rendered the country never would be forgotten.

WEDDED 60 YEARS

Michigan Pastor and Wife Celebrate Anniversary Here.

The Rev. J. S. Masters and wife.

TRIBUNE Photos.

The Rev. J. S. Masters and wife of Coloma, Mich., today are celebrating their sixtieth wedding anniversary at the home of their daughter, Mrs. O. W. Stuch of 1143 Oakdale avenue. The seven children and a lot of grandchildren will be on hand to light the sixty candles on the anniversary cake. Mr. Masters is a civil war veteran and is a supernumerary minister of the Christian church.

ANOTHER 'DRY' CHIEF ASSAILS CHURCH AS 'WET'

New Jersey Leader Hits Catholics.

New York, March 10.—[Special.]—Another attack on the Roman Catholic church by the Anti-Saloon league was made today when its New Jersey superintendent, the Rev. James K. Shields, in a statement attacking Gov. Edwards for his stand on national prohibition asserted that "90 per cent of the effort, sacrifice and votes that have put over prohibition—and will sustain it—have come from non-Catholics."

Following the declaration that "the Anti-Saloon league backers are 100 per cent American and not the 3.50 per cent class," the Rev. Mr. Shields continued:

"The people to whom Gov. Edwards is appealing are chiefly foreign born from continental Europe and Ireland. Wherever there is ignorance or vice or lawlessness there will be found people who back Edwards."

"Stirring Mighty Host."

"In speaking contemptuously as he does of the Anti-Saloon league Mr. Edwards is stirring the mighty hosts of American Protestants for whom the Anti-Saloon league is the spokesman and the fighting right arm in the battle against the most vicious forces in American life."

"The Anti-Saloon league has always been controlled by representatives of Protestant Christianity. It has been financed chiefly by Protestant church men and women, and as an expression of the patriotic purpose of this loyal class of American citizens it has achieved the greatest victory for morality, civic decency, and patriotism the world has ever known."

Denies Religious Feud.

Referring to Gov. Edwards' speech in Atlantic City last Saturday night, in which the governor charged that William H. Anderson, New York superintendent of the Anti-Saloon league, was aiming at a religious feud, the Rev. Mr. Shields said:

"From that safe retreat (Atlantic City) Gov. Edwards glorifies Cardinal Gibbons, and attacks American Protestants, which by coordinating its forces under the leadership of the Anti-Saloon league, has written prohibition in our fundamental law."

"This is a question of Americanism, not of religion," Mr. Shields continued. "I am not arraying Protestant against Catholic. I know some Catholic prelates are opposed to prohibition and are always ready to lend their names to the support of the liquor traffic, but on the other hand, there are multitudes of Catholics who are bitterly opposed to liquor and the liquor traffic."

DALRYMPLE GETS MINIATURE STILL; ACCUSES CLYNE

Renews Threats to "Get" Michigan Officials.

Maj. A. V. Dalrymple's prohibition forces marked up one victory yesterday and their chief made another public statement in which he accused District Attorney C. F. Clyne of hampering dry prosecutions and reiterated his old promise to "get" Iron county, Mich., officials for their part in his copper country "run rebellion." Another federal prosecutor, District Attorney Myron T. Walker of Michigan, is included on the major's public blacklist in the latter instance.

As a result of the victory Robert McDonald of 1113 Leland avenue, chief counsel for the Ramsey Products company, was held to the grand jury, charged by the dry forces with having an unregistered still in his possession. He was arrested by Maj. Dalrymple's men recently after they had broken into his home and seized a tiny experimental still, two bottles half filled with 10 year old apricot brandy, and a jug containing three quarts of medicated alcohol, together with four ounces of perfume, a product of the still.

Made First Experiment.

"I purchased the still, so small that it could not turn out three drinks of any sort in a day, through my company for experimental purposes," declared the chemist yesterday. "I had just received it and put through one perfume experiment when I was arrested and it was seized. It was not yet registered because its makers had not yet forwarded me its registration papers. As for the liquor seized, the two bottles of brandy were left of my meager private stock. I bought the alcohol—a gallon originally—last June and poisoned it through a process which I hoped to work into the making of perfume and toilet waters. I foresaw that people would be trying to drink perfume after the country went dry and intended to treat my product so that it could not be consumed as a beverage."

Maj. Dalrymple's latest verbal attack is the result of federal court discharge of two alleged still tilters, arrested by prohibition agents without federal warrants and at the point of guns. The cases were dismissed by United States Commissioner Foote after the prisoners had filed affidavits with Federal Judge Carpenter protesting the manner of their arrest and after the district attorney's office had recommended their release.

"I have received no orders from Washington to stop searches and arrests without warrants," declared the major. "Reports that the effects are lies. We shall keep on this campaign and keep on vigorously. If District Attorney Clyne won't prosecute our cases well bring some one here who will. Already hundreds of liquor dealers we drove out of business have come back in open defiance of the law. They were closed up until they were told that our hands were tied and we could not get the support of the courts."

Clyne Makes No Reply.

District Attorney Clyne declined to comment on the major's charges. "I will have no public quarrel with him," he said. "This office is always ready to press legal prosecutions to the limit and will continue its policy. As I have said before, federal arrests are in place only when they are carried out through proper procedure or where an open violation of the law is observed by a federal officer."

MORE LICENSE FEES

Twenty-two ordinances designed to recoup some of the city's revenue lost when national prohibition closed the saloons were passed unanimously yesterday by the city council.

Ten of the ordinances were passed under a suspension of the rules, so vital is the city's need of revenue. Ald. Cermak, who has been in charge of the campaign for more funds, explained that there will be no objections which will necessitate many amendments.

The council also voted to double the building inspection and permit fees. Last year \$165,000 was received from this source. With the fees doubled and a building boom on \$215,000 is expected this year.

Cost of Licenses.

Almost all of the new licenses have sliding scales, based on the number of employees of the licensed firm. Briefly the new ordinances provide:

Manufacturers of doors, blinds, packing boxes, office supplies, paper, cigars, furniture, fixtures' molding, and picture frames, \$25 to \$200.

Manufacturers of wagons, carriages, jeeps, trailers, and automobile bodies, \$25 to \$200.

Foundries and steel factories, \$25 to \$200.

Laundries, \$50 to \$200.

Detective agencies, \$125 to \$250. Individual detectives, \$25 each.

Insurance adjusters, \$50 each.

Automatic vending machines, \$1 to \$10 a year each.

Dealers in sawdust, shavings, and excelsior, \$100.

General contractors, \$200.

Subcontractors, \$25 to \$200.

Retail furniture dealers, \$25.

Motion picture operators, \$25 for new license, \$5 for renewals.

Bakers, fee raised from \$30 to \$50 for firms with not more than two wagons, \$25 for each additional wagon.

Automobile repair shops, \$15 to \$25.

Garages, \$25 to \$150.

Furriers, \$25 to \$75.

Jewelers, \$25 to \$75.

Drain layers, \$5 to \$25.

Chemical manufacturers, \$25 and \$3 for each employee.

Excavators, \$25 and \$5 for each wagon.

Second hand dealers, \$25.

Itinerant merchants, \$50 a day.

ASK STATE RENT FIGHT

On motion of Ald. Mulcahy, chairman of the council rent committee, the council petitioned the constitutional convention to tackle the rent question. The resolution passed yesterday by the convention to "take up for consideration the prices or rates to be charged by landlords for the use of their premises and to provide adequate penalties for the violation of such laws."

Mayor Thompson named the following members of the board of examiners

of electricians: Commissioner of Gas and Electricity Keith, F. G. Waldeffe, Thomas Thoma, Walter Q. Leonard, and Oscar J. Cooper.

Ald. Kostner's suggestion that the city own all taximeters with a view to establishing uniform taxi fares was sent to the judiciary committee and Ald. Smith's proposal that dog licenses be issued at police stations instead of at the city hall went to the license committee.

Break Tag Day Rule Again.

From the board of local improvements the council received ordinances for the improvement of Michigan avenue from Fifty-fifth street to Sixty-third street and North Leamington avenue from Grand to Belden avenues.

Protests from the City club and the American Association of Engineers against the proposal to boost the building height limit to 250 feet were sent to the building committee.

The council again broke its two-tag days-a-year rule by granting two tag days to the Bohemian Charitable association on motion of Ald. Cermak. Ald.

Marinette, Wis., March 10.—The late Fred M. Stephenson, lumberman and hunter, left an estate valued at \$254,900. The heirs are his brother, George L. Stephenson, former Milwaukee business man, now residing at Michigan City; a sister, a nephew, and a niece. Mr. Stephenson was an associate of John T. McCutcheon, Chicago cartoonist, and Stanley Field of Chicago. He made a hunting trip through Africa with McCutcheon.

Studebaker

THOUSANDS of people have fully determined to buy a new car for delivery before the first warm day of spring.

Many are doomed to disappointment. We are facing the greatest shortage of good automobiles the industry has ever known. And this shortage will be most acute when cars will be most in demand.

Dealers have been unable to accumulate any stock of cars for spring delivery.

You will run less chance of disappointment if you place your order for a Studebaker now.

STUDEBAKER SALES CO. OF CHICAGO

Studebaker Distributors

Michigan Ave. at Twenty-First St.

"This is a Studebaker Year"

Camouflaged!

All camouflage, this idea of paying 2 for 25c and 15c for a cigar when you can get a selfsame leaf at 6c.

Try the Salome, Mr. 15c Smoker, and stop fooling yourself. See that illustration. The Salome is a leaf of short filler from the regular 2 for 25c and 15c cigar. Then the reinforced leaf filler hand is added to keep the scraps from your mouth. A convenience smoke at last for the man who wants all value and no camouflage. Here's an all good cigar stands and drug store sign.

Try a Salome at the straight today and see if you don't get all the smoke satisfaction that all good cigar stands and drug store sign.

LEAGUE MAY FORCE WILSON TO RUN AGAIN

Democrats Up in Air if Treaty Is an Issue.

BY ARTHUR SEARS HENNING.
Washington, D. C., March 10.—[Special.]—Possibility that injection of the league of nations issue into the presidential campaign will cause President Wilson to reconsider his decision not to become a candidate for a third term has upset all calculations in the Democratic camp.

Attorney General Palmer, earnestly seeking delegates with the aid of a large and well financed organization, which has opened headquarters here, has no guarantee that he will not be required to step aside, possibly at the eleventh hour, in favor of the president.

William G. McAdoo, the president's son-in-law, having the most accurate information of Mr. Wilson's intentions, has been playing the game safe by urging the Democrats to send unattached delegates to San Francisco, leaving himself the while well to the fore as an ideal choice if his father-in-law does not feel impelled to take the nomination.

Clark for Free Delegates.

In a letter declining to enter the Georgia primary, Champ Clark today came out in opposition to unattached delegates and in favor of an untrammelled convention, a nomination by which he makes it clear he would accept.

But none of the Democratic aspirants will begin to get his political bearings until the fate of the treaty is decided and the president indicates definitely whether his candidacy is open for consideration.

If the treaty should fail of ratification there will be a good deal of pressure brought to bear upon Mr. Wilson by Democratic advocates of a league of nations to lead the party because in their opinion no other candidate could hope to win on the issue of opposition to reservations.

A Precedent Smasher.

Friends of some of the presidential candidates believe Mr. Wilson would be seriously handicapped by the third term addition in running even on an issue of his own making, but the president is a tradition smasher.

Senator Kenyon, Iowa, put the treaty issue to the fore in announcing today his support of Senator Johnson for the Republican nomination, despite the fact that Iowa Republicans probably will favor President in the convention.

"The President in his letter of Monday has made the issue," Mr. Kenyon said. "It is the issue of the day. Let the fight be fought on the issue of the treaty."

Let the Democrats nominate Woodrow Wilson under the white flag of internationalism and the Republicans nominate Hiram Johnson under the Stars and Stripes of Americanism.

Sees End of Wilson Party.
"That will be a contest worth while, and there will be hardly enough left of the Wilson party to hold a respectable coroner's inquest."

Senator Norris, Nebraska, also came out for Johnson on the ground that he is a candidate of the plain people who is fighting machine politicians and special privilege.

Navy Wireless TO SUPPLY PRESS SERVICE AT COST

Washington, D. C., March 10.—[Special.]—In an effort to liberate America of foreign telegraph monopoly the navy will extend its wireless service to foreign countries, furnishing a cheap rate to American news concerns.

Without opposition the senate today passed a bill authorizing a wireless service with Norway, Germany, Constantinople, the Philippines, and Siberia. The bill covers all these routes except Honolulu, now under English control.

The need for American wireless news agencies and newspapers, which complained that means of communication now are entirely in control of foreign companies.

The navy, which maintains high power stations for its own use, will furnish a service at cost until American private concerns are prepared to take over the service.

Man Killed When Struck by Airplane

St. Petersburg, Fla., March 10.—W. E. Radtke, 40 years old, of Sioux Falls, S. D., was killed today when he was struck by an airplane, which was taking off from a beach preparatory to a flight.

WOMEN'S RULE BRINGING RUIN, SAYS HICKSON

"The women have secured the drop on the men in this country. The nation has put its head in the noose of puritanism and the degeneration of individual and national life is inevitable."

This was the view expressed yesterday by Dr. William J. Hickson, head of Chicago's psychopathic laboratory, who declares that decadence of the nation can only result from the ascendancy gained by women in affairs. He asserted that the war brought women to the front, taught them to wear uniforms, smoke, and adopt masculine ways.

"Prohibition is typical of the modern

puritan mania," he said. "The church movements are typical. They, with prohibition, with so called high standard of morality, result in a deterioration of masculine physical and mental virility. There is a falling off of creative ability. The lowering of the birth rate is already noticeable. American people which was the result of a masculine dominated country, will soon be a thing of the past."

"The effeminization of man is already noticeable. The male today is inferior in most respects to the female. He is aping her in the matter of clothes. He bows to her legislation and vaguely whistles it up for her reforms. He is fast taking second place, and with his fall there is no question that production in the United States, mental and material, will decline. In fact, the present decline."

SENATORS FEEL BICEPS FOR LAST FIGHT ON TREATY

Mark Time While Getting Ready for Article X.

[BY A STAFF CORRESPONDENT.]
Washington, D. C., March 10.—[Special.]—The senate deliberately marked time on the peace treaty today while the various factions held numerous powwows to strengthen their defenses for the crucial struggle scheduled to begin tomorrow.

Compromises were swept into the discard today and the contest virtually narrowed down to the question of whether the insurgent Democrats could deliver sufficient votes to Senator Lodge to bring about ratification with the reservations.

Senator Wilson, Indiana, abandoned the compromise reservation he had framed on article X after it had become evident that it would never command sufficient support to insure ratification of the treaty.

Both Sides Object.

It was found unacceptable by many strong reservationists on the Republican side as well as by the administration Democrats. The reservation may be offered by some "mild," but the intention of the Republicans to-night was to stand on the original Lodge reservation.

There was a conference of insurgent Democrats early in the day in the office of Senator Owen, Oklahoma. Those present included most of the Democratic senators who are up for reelection this year and who are inclined to agree with William Jennings Bryan that it would be "suicidal" to go before their constituents on the issue of article X. These senators are determined to defy the president and vote for ratification no matter what reservations are made. About sixteen attended the conference, it was stated.

Proselyte for Help.

The insurgents left the conference to seek converts. They claimed later to have twenty-five votes, and twenty-nine were necessary; but they had hopes of getting four more over night. Senator McCormick, Illinois, in a speech in the senate described the situation in this language:

"The issue can be veiled no longer. The legislative phrase makers may write and rewrite reservations; they may torture sentences and conjure with words, but the issue is here."

"The issue cannot be confused by anything written in these halls or voted on in this chamber. It will not go down. If there be ratification, surrender, the people must know who has surrendered."

A WATCHMAN's two shots scared thieves from the cellar of E. S. Rosenbaum in Glencoe.

I. A. BENNETT returned from Florida to learn the steel locker in his cellar in Kenilworth, despite double padlocks, had been broken open and \$1,000 worth of liquor stolen.

ALICE and MARGARET HOSTETLER of Elkhardt hired a taxi from Aurora to Lyons. The bill was \$15. They and the friends they were to visit could raise only \$10. The hard hearted chauffeur took the sisters back to Aurora and had 'em locked up. But Assistant State's Attorney Amell released them. Then money came from both Elkhardt and Lyons, but the girls went back to Elkhardt.

MARCH 21 was proclaimed Illinois Thrift Sunday by Gov. Lowden.

BURGLARS got \$226 in bonds, clothing, and gems from the store of Sliam and Hightstetter, 2449 Commercial avenue.

POLITICAL NOTES.

Wood headquarters expressed elation over the news of Gen. Wood's New Hampshire direct primary victory.

The Fifth Ward Thomas A. Doyle Woman's Organization announces the opening of a series of meetings in the interest of Mr. Doyle, candidate for alderman, at the Wallace A. A. club-rooms, 604 West Thirty-seventh street, at 8 o'clock tonight.

Senator Clarence F. Buck of Monmouth, returned to Lowden headquarters from a scouting trip through the northern peninsula of Michigan. "The people of Michigan want Gov. Lowden and he will sweep the state at the primaries, April 5," Senator Buck said.

Gov. Lowden's candidacy for president was endorsed yesterday by the directors of the Wholesale Cattle association, in session in the Peoples Life building.

Col. William Cooper Procter, chairman of the Leonard Wood campaign organization, issued a statement yesterday, covering the entrance of Frank H. Hitchcock into the Wood campaign. "It is of particular gratification to all of us," the statement said, "that Mr. Hitchcock has joined our committee. I want to take the occasion to deny vigorously the rumors that have been put into circulation to the effect that any one connected with the Wood campaign will attempt to unseat Will Hays as chairman of the national committee after a presidential candidate is chosen by the Republican party."

Gen. Wood goes to Indianapolis tomorrow, to St. Louis Saturday, and Monday he enters South Dakota for eight days of campaigning, ending the night before the South Dakota direct primary that is attracting the political attention of the nation.

Evanston School Head Explains Teachers' Status

Stewart Warring, president of the Evanston board of education, yesterday declared a great injustice had been done both to the teachers and the board through the publication of the names of eleven teachers as "discharged from the schools." The names of the teachers were not included in the new list. "Miss Alma Hoyt's case has been given special consideration," Mr. Warring said, "and she has the privilege of taking it to the superintendent, teachers' committee, or the whole board. The case of Mrs. Evelyn Houghton was given special consideration at the last meeting of the board. Final disposition has not been made."

Supt. Frederick W. Nichols explained that the names of Misses Lorraine Vengel, Dorothy Anderson, and Lorraine McCue did not appear on the lists because they are kindergarten assistants and only temporarily employed. Misses Agnes Bakewell, Bessie De Witt, Esther Griebel, and Katherine Furring resigned.

THE OAKLAND
Henry C. Lytton & Sons

State and Jackson—On the N. E. Corner

A GOODLY PROPORTION of those who examine carefully the new Oakland Sensible Six Sedan are frankly amazed at its moderate cost.

For this car is the good Oakland of years past made visibly better, through heavier construction and advanced design.

Frame, axles, engine—body and equipment—every Oakland part is fully adequate to the demands that may be put upon it.

All contribute to a value in the present model made possible only by Oakland's policy of concentrating its whole energies upon a single chassis type.

The cars we are now showing preserve Oakland's traditional high power and complete economy, in combination with a stronger chassis of longer wheelbase.

Still scientifically light in total weight, but endowed with increased strength and serviceability, they more than ever deserve your careful inspection.

Famous Pencils

The Koh-i-noor Pencils, renowned throughout the world for their high quality, are again obtainable in the American market.

These famous pencils are made in the original factories established in 1790 by L. & C. Hardtmuth in Bohemia, the land of the Czechs, and known as the youngest Republic in the world—the Republic of Czechoslovakia.

The Czechs were long held a subject race by Austria, but they rose in revolution against Austria in the great world war and caused the downfall of that government, which led directly to the downfall of Germany. The Czechs were allies of the Entente Governments and of America, and their exploits in Siberia, Russia, France and Italy won the admiration of the world. Their splendid work gained for them from the Entente Allies the recognition of Czechoslovakia as an independent state.

The Koh-i-noor Pencil Factories are among the most important in Bohemia, employing about 1700 people, all of them native Czechs, as are also all members of the firm of L. & C. Hardtmuth.

NOT FOR THE U. S. A.

President Wilson makes the covenant of the league of nations and the treaty an issue in this form: The United States should surrender its national interests to the cause of humanity.

The cause of humanity is not promoted by the league of nations. It is not human. It is difficult to see how it could be. It is a fraud on humanity. The sacrifice of American sovereignty to such a project would damn the generation which made it as well as the government which urged it.

If the cause were not a fraud the surrender of American nationalism to internationalism would be indefensible. If the league were to produce what Mr. Wilson says it might produce the United States would be a traitor to its own future if it subordinated its integrity, sovereignty, and right of decision, and action to such an international scheme.

Good or bad, the league of nations cannot ask for the subordination of the United States. If the league were a powerful, altruistic organization, it would be a betrayal of American future to surrender American sovereignty unconditionally to it. That would be a crime in trusteeship, in the relation of one generation to others.

If the league is an imperialistic organization, the surrender will be a futile and shameful and disastrous betrayal of the American future. We know what the league is. It is imperialistic. We do not know what it will be. Neither does Mr. Wilson. We do know that the senate reservations preserve the American nationality by preserving the American right to determine whether the league was serving humanity or Mammon.

Mr. Wilson always reaches out to embrace humanity and always gathers the thin air. The service which the peace makers in Versailles have done humanity thus far may be thus stated:

They took a weak, artificial empire to pieces. They subjected the new state of Austria to starvation and the new state of Hungary to the Roumanians. They gave an old race of Tyrol people to the alien Italians, and 300,000 or 400,000 Jugo-Slavs to the Italians. Austria is starving because the peace makers intended that it should disappear, and they cut it off from territorial connections which had fed it and would not allow it to be joined to Germany, with which it could be assimilated.

They could not control the defeated Roumanians who came back as able bodied looters as soon as there was peace made and overran Hungary, which was helpless. They could not control the Imperialistic Italians who wanted the Adriatic to be an Italian lake. They were willing the Italians should rob the Jugo-Slavs, who in turn might rob the Albanians.

They were not able to control their own subordinate allies, and of course they could not control their worst licked enemies, the Turks. Massacres have been proceeding in Armenia almost under the guns of allied forces and the allies have not been able to stop it because they were afraid of each other's designs on Constantinople.

Finns, Estonians, Letts, Poles, Ukrainians, and the peoples of the Caucasus have been urged on to fight the Russians and left to take their licking, or make such peace as they could.

Syria has been alive with British, French, and Italian intrigue, and hot with native exasperation. Persia has been grabbed by the British, who are now in contact with the Russians up in the Caspian regions. They have Mesopotamia. They are consolidating and pushing out.

The French are in the Saar valley and want the bank of the Rhine as a frontier. Foch says they must have it if they are to be secure, and there are many indications that this is the real French objective under the treaty.

The Chinese province of Shantung with 40,000,000 Chinese has been handed over to the most thoroughgoing conquerors the world knows, the Japanese, who extinguish nationality by the same methods that were used in the effort to extinguish the Poles.

Siberians are alarmed by Japanese forces in Siberia. Egypt and India, restless with the provocative idea that the war meant something for human freedom, are being ruled by machine guns.

This is the humanity advanced by the treaty, and it is the humanity which the covenant of the league demands shall be fixed in perpetuity by the force of the nations adhering to its terms.

These boundaries and dispositions of peoples are fixed. They are to be maintained by the force of the league. Imperialism never did a more thorough job and never asked for greater guarantees than it should be able to hold on to what it has.

A FAIR FIELD FOR THE REPUBLICANS.

There is a fair certainty in the prospect that the Republicans will nominate a candidate for president. They always do that. What we would like to feel more certain of is that they will elect one.

"Two successive failures, and the consequences, have increased the desire of certain elements in Americanism, and of very good ones, that the Republicans do not succeed this fall in making it three in a row for themselves and the country."

Two terms of Mr. Wilson have left a great many Americans willing to take anything other than a Democratic administration, providing that other thing is a Republican administration. A change will do the country a great deal of good. At least we think it will. We hope the country gets the chance to see if the change is not a decided improvement.

The candidate the Republicans will nominate has to depend upon the Republican management for his chances of election. If the management takes the chances away from him, he is merely let in for a large amount of work and worry, and the country is deprived of its best opportunity to get the kind of administration it ought to have after this year.

We believe the country is ready for the Republican candidate if the Republican management will give him a good start and a fair field. It may be difficult to keep a Republican candidate from winning, but we do not want to see the experiment of making it an obstacle race tried.

We do not want the candidate carrying weight and taking hurdles. The Democrats are supposed to make it hard for him. They will if they can. Let the Republicans make it easy.

ADMIRAL SIMS.

Among the considerable figures of the war, Rear Admiral Sims is the only American naval or military man who has spoken out freely and frankly.

In so doing he has shown a moral courage and patriotism which deserve the highest praise and appreciation of his countrymen. He is performing a duty as serviceable as it is unpleasant. He makes himself the target of every official who finds his mistakes or misdoings in danger of exposure, and what is much more serious, he offends the partnership and even the patriotism of such part of the public as likes to think America faultless and infallible. The jingoes are always the defenders of incompetence and bad policies are always best hid by arousing emotions of blind pride and patriotism.

So when Admiral Sims insists upon the truth and thereby endangers our complacent theory that the British navy fell in meekly behind the Americans after April 17, 1918, and that the Kaiser threw up the sponge after the marines captured Belleau wood, he is not doing a popular thing but he is performing a very important public service for which civilians, at least, should thank him.

If the men who went through the war in responsible positions pass down to their successors erroneous records of their experience and erroneous conclusions drawn from them, if unpleasant truths are sedulously hid, either to protect individuals or to minister to national false pride, we shall in due time pay a heavy price for our momentary indulgence. Official records are colorful de rose. They are not critical documents. Read alone, they do not produce knowledge fit to build upon. On the contrary, they tend to fortify the mistakes and fallacies of the past. A strong dose of candor would do the public and likewise the experts, generals, and admirals a great deal of good. It might be unpleasant on the palate. It certainly would be good for the services and for the national constitution.

We ask for Admiral Sims—and for any other courageous and competent critic of our naval and military operations—a full and fair hearing—and, more, the thanks of the nation.

FREEDOM'S ISLAND STRONGHOLDS.

The announcement that Great Britain will not consider the disposal of the British West Indies to the United States in part payment of debts is good news to many solvent elements in our population. The British reason for retaining the islands is that the blacks have been loyal adherents of the crown and should not be handed over to such ideas of liberty as prevail in parts of the United States. The British Uncle Toms are not to be sold down the river.

For reasons of humanity which may appeal to Mr. Wilson as consonant with one or all of his fourteen points the British will protect the West Indian Negroes from all possibility of ever becoming citizens of the United States. Thus their liberties will be preserved.

This is not what delights many Americans, although the American reason for wanting the British to retain the islands also is based on the desire for the perpetuation of liberty. To many Americans the Statue of Liberty now lights the way out and not the way in.

Cuba, protected by us from ourselves, is free and fair, but crowded. It probably will have a real estate development within a few years and a building boom which will make it one compact Woolworth building, housing the greatest city in the world. The American emigre will be seeking new lands, not to conquer but to be conquered, not to impose his laws but to be imposed upon.

The British West Indies, if the British preserve their protective policy, will be a part of the asylum. We never know when Mr. Bryan, in one of his numerous candidacies, may be elected president. If that happens he will put Cuba under the yoke. His freedom is tentative. We may not always be able to resist the temptation of doing it good.

Mr. Bryan's friend, Joseph Daniels, the great secretary of the navy who ever came from Raleigh, N. C., is demanding a fleet greater than Great Britain's with the obvious intention of carrying out Mr. Bryan's imperialistic policies. If he gets it we may take the British islands away from the British. Mr. Bryan and Mr. Daniels are just like two straws in one cherry phosphate.

But we hope the British hold on to the West Indies just as long as they can.

Editorial of the Day

THE LANE DUCK WARD.

[From the National Republican.]
Of the three most recently appointed members of President Wilson's cabinet, Mr. Palmer was defeated for senator in Pennsylvania by about a quarter of a million. Mr. Meredith for governor of Iowa by the biggest majority ever piled up against a candidate for that office, and Mr. Colby for senator in New York by a couple of millions. As an asylum for lame ducks the presidential council chamber is a huge success.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

IT might not be a bad idea to prelude the news from Washington with a synopsis of Article Ten. The public has probably forgotten what it sets forth.

Trained vs. Natural Thinking.
Sir: A prominent educator of Madison, Wis., who prides himself on his intellectual keenness, tells this on himself. On entering a 60 pay-a-day contest for a prize of \$100,000, he asked the conductor for two nickels and received a nickel and five pennies. When he protested that he did not want any of those pennies, the con asked him why he didn't put them in the box. C. A.

A MAN advertised a \$40 flat in last Sunday's Tribune, and before 10 p. m. answered 340 telephone calls. Either flats are scarce or the Trib is a good advertising medium.

"NO MORE CHANCE THAN."
[Public Service Bulletin, Province of Ontario.]
"Investigation was by Deputy Fire Marshall McGregor. Mr. Snowball, upon going up into the mow a few seconds later to try to check the fire, sank down into a pit of flame, and only escaped from being lost by not having let go the ladder he had ascended."

"YOUNG widow wishes a few more places to wash. E-498."—Milwaukee Journal.
Might we suggest an o. f. Saturday night soap? The Estetate Cordale in China.

[From the Peking Daily News.]
To the Editor: Considering the trouble and expense to which most of the performers at the entertainment were put in giving their services in order to make the children's entertainment a success it was, the account of it inserted by your correspondent (who is evidently an American) in your Saturday's issue seems hardly fair. He mentions only American names, he mentions only an American stage manager (though it was generally remarked that the stage managing left much to be desired), and he mentions an American Santa Claus (whose speech betrayed him, for his features were invisible); but of all the little dancers who had given weeks to learning their parts and of the non-American lady performers who had given their time and energies to ensure that the entertainment should be a success, not one is mentioned, not a word of praise is given! Surely this, though it may be some narrow-mindedness or some provincialism, is neither more nor less some civilization! Yours faithfully,
One Who Was There.

"THE ladies," reports the Rock Island Argus, "spent the hours with their fancy work, and a delicious three-cornered luncheon was served." Meaning Tea, Tasting, and Tattle, suggests Mac, who fears he has lost his punch, and wants to get back into the column.

QUICK, WATSON, THE DICTIONARY!
[From the Preceptor Journal-Standard.]
Topeka pedestrians have complained to the police of a vicious game cock that comes out of his owner's yard and attacks them. One woman said: "I said 'shoo' to him and that only made him make him move viciously. He flew at me, pecked at me and hit me with his spur, lacerating the flesh over my right patella."

AN Iowa man offers for rent a "six-room house strictly modern with the exception of bath and furnace."

Concerning Frontiers.
[George Washington, during the war of the American revolution.]
I would to God that some one of the most atrocious in each state should upon a gallows five times as high as his own head be prepared for Haman. No punishment, in my opinion, is too great for the man who has so long and so cruelly oppressed his fellow men. Let vigorous measures be adopted; not to limit the prices of articles, for this, I believe, is inconsistent with the very nature of things, and impracticable in itself; but to punish speculators, forestallers, and extortioners, and, above all, to sink the money" (i. e., redeem the currency) "by heavy taxes, to promote public and private economy, and encourage manufacturing. Measures of this sort, gone heartily into by the several states, should strike at once at the root of all our evils."

GEORGE, allows Y. E. A., would be popular to day as a candidate. Platform: "String 'em up!"

ENGLISH POSSESSIVES.
Sir: I recall a one-sided conversation overheard in that awesome silence which falls when the street car stops. She had been telling a thrilling story of a midnight rescue and would not be denied her climax even though her husband heard it. She said: "And he carried him across the street from where the fire was, and while he was standing there his wife came and got right down on her knees and kissed the man who rescued her husband's feet." F. R. M.

MRS. BLUNT has Goatsalohrdcmfwypz."—Kenall County News.
A variety of fun?

Trade Classics.
Sir: The attorney had made his motion. The Justice of the Peace was newly elected, and unlearned in the law. He looked about the courtroom. "You've all heard the motion," said he. "All in favor respond by saying 'Ay!'." S. O. P.

"WHY, it's Mr. Pultney!" said Georgiana, and rose, blushing, from her knees—"Everybody's Magazine."
"Rejoice with me," invites Jeanne, "that the author did not omit that comma."

BRIGHT SAYINGS OF THE BETTER HALVES.
Sir: Wife says that maple syrup will cost more because the trees are higher than last year.

HOWEVER, the price is not fixed by the height of the tree, but by the height to which the sap rises.

Fire! Fire!
[The agent at Maple Tree Hill, la., reports.]
Extra going thru here about 4 a. m. set fire to depot platform. Mrs. Andrew Balmer was the first to see the fire and sent her son Arthur down to route me out of bed. Sent the lad out to get help. Fred Burr, Mr. N. E. Sebold, Mrs. Sebold, Mrs. Balmer and her son were on the job in short time. Mrs. Balmer, Mrs. Sebold and my wife kept the tub full of water at the pump while us fellows took the platform up and down the bucket brigade with coal pails until anything that would hold water. Mr. Ruff got the extinguisher from the store and I used ours but had little effect as the fire had a good start with a northwest wind fanning the flames. Got the fire out at 8:45 a. m. Mrs. Balmer wrenched her shoulder at the pump, caught cold and has a stiff neck, but is able to be about. Rest of our fire department O. K.

"WANTED, to rent, sunny, large room for a lady who needs a little attention."—Trib.
As for instance?

ADD MENTAL EXHAUSTS.
Sir: When Thim Langford boxes, he squares himself, hunches and flips, and his opponent spars for an opening, he continually waves a suppositional fly from his nose.

ONE common mental exhaust is the waggle of many golfers. It also exhausts the other players.

The Ladder of Success.
Sir: As I was going out my dog and only 99 25-100 per cent pure egg in Rogers Park this morning, a painter motored past in a large and glittering taxi, his ladders protruding from the rear window.

In Weyauwega, Wis., Otto Tim offers timothy hay, and Mrs. James Halre sells Belgian hares. Intriguing, nesepp?

OH, DON'T LET US DEPRIVE YOU OF THE PLEASURE OF HEADING IT.
Sir: W. S. Robb and Miss Ruth Steele have just been married at Thief River Falls, Minn. I modestly leave the caption to you. CLIPPITS.

SWEETER than the songs of Apollo are the cries of a flock of wild geese V-ing north. B. L. T.

How to Keep Well.

By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, if matters of general interest, will be answered in this column. Where space will permit, the subject will be not only answered, but also explained, and where a stamped, addressed envelope is enclosed, Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests for such service cannot be answered.

(Copyright, 1920, By Dr. W. A. Evans.)

FLU WAVE RECEDED.

It was predicted sixteen months ago that the epidemic of influenza would be a great wave of influenza. Six months ago it was predicted that the wave would be lighter than that of 1918-19. This prediction was made in the face of the fact that the epidemic of 1918 was worse than that of 1919 in Chicago, the city in which the study was made. At the time this was written this prediction appears to have been verified. In all probability the wave of 1920 began with an epidemic of diarrhea in Oklahoma, and presently in Kansas. More typical influenza accompanied by pneumonia appeared in Chicago about Jan. 15. The worst of the disease was over in one month. This year it was the worst was about as high as that of the worst period of 1918. Detroit seems to have had the disease more severely than in 1918, but Detroit was lucky in having a low rate relatively in 1918.

The February bulletin of the Metropolitan Health department is already very good evidence of the fact that the disease from that of 1918 in that it is comparatively mild and causes relatively few deaths. The normal influenza-pneumonia rate among its policy holders for January, 1919, was 125. This year it was 112. During the height of the 1918 epidemic it was 1747. They predict, however, that February will be higher.

The public health service report of Feb. 7 says: "At the present stage of the 1920 epidemic the excess mortality rate for the cities included in the weekly health index is only about 50 per cent what it was in the corresponding stage of the 1918 epidemic, indicating that this epidemic is much less severe than the epidemic of 1918."

In Chicago, Milwaukee, and Washington the disease was on the decline on that date. The cities which at the time of that report seem to have suffered most are Kansas City, Syracuse, St. Louis, Washington, Chicago, Dayton, Milwaukee, Minneapolis, New York, Philadelphia, Columbus, and Pittsburgh. The rule, with these exceptions, is that the cities suffering most this year got off rather lightly in 1918, and vice versa.

It is not easy to compare figures at this time because the reports are incomplete and the reporting of influenza-pneumonia is not uniform in the different cities. The best figures will be those which show the influence of the epidemic on deaths from all causes. Those will not be available for some time. However, it is reasonably certain that so far as most of the cities are concerned the force of the epidemic for this winter-spring has been spent.

The age distribution is somewhat different this year. The older people are paying a heavier bill and the younger are escaping. This was true in 1891 as compared with 1890.

There is practically no danger. Open the books and expose them to sunlight for two days. Beyond this you need do nothing.

QUIT TROUBLESOME FOOD.
Mrs. H. W. H. writes: "Tell me what to do for the hives and what causes them. On scratching or rubbing my skin, white lumps appear. These do not last long at a time, but my skin is almost constantly irritated. Is this caused from something I eat or from the circulation, or what?"

Apply soda water of which wash locally. Take a purge. Hives result from eating food which is poisonous to the person concerned, but harmless to people generally. If you discover the food to which you are hypersensitive eliminate it from your diet.

WILL BONUS CAUSE PANIC?

Washington, D. C., March 10.—[Special.]—Belief that a bond issue to raise revenue to provide soldiers' bonuses would cause a financial panic was expressed before the house ways and means committee today by Representative Mondell, Wyoming, Republican floor leader. He appeared to discuss his soldiers' land bill, which, however, he did not particularly urge at this time because of the condition of the treasury. He was asked about his views on cash bonuses.

"I have frequently stated that I do not believe we could issue bonds without a panic," Mr. Mondell said in reply to a question by Representative Crisp, Georgia, as to whether funds for cash bonuses should be raised preferably by a tax or bond issue.

"A bond issue, if it were in a form intended for investment, would, in my opinion, threaten the specie basis of our country. If a popular issue it would so expand the circulating medium as to boost prices way out of sight."

"I have a consumption tax, which 'was not a popular thing,' seemed to be the most feasible way to raise the money if a tax was decided upon."

That he opposes any soldiers' bonus legislation at this session was the inference drawn from Mr. Mondell's testimony, although he said he preferred not to discuss the general question involving the condition of the treasury. In view of the fact that Secretary of Treasury Houston and Gov. W. P. G. Harding of the federal reserve board are to appear before the committee tomorrow.

Mr. Mondell said that his soldiers' land bill, when originally introduced, was designed chiefly to furnish employment to soldiers and not as a bonus scheme. He said that the reclamation scheme provided by the bill would probably furnish employment for between 150,000 and 200,000 men.

Headquarters, 111 West Washington street.
Ex-service men! Fill out the above coupon and mail it to the legion nearest you. American Legion booklets will be mailed to those sending a stamped, addressed envelope to the Friend of the Soldier, CHICAGO TRIBUNE.

Mrs. A. E. Wicher, 154 Milwaukee avenue, desires to hear from any soldier who knew her son, Private James W. Holley of Company E, 27th Infantry, Siberia.

THE GOOD NATURED GOLFER

(From London Ideas.)

Angry Farmer (to golfer, who has driven into his growing crops):
You! You've got no business to be there.
Golfer: "I know. Rotten shot, wasn't it?"

FRIEND OF THE PEOPLE

Letters for this department must be signed with names and addresses of the writers.

DELETED BY STRIKE.

Chicago, March 5.—[To the Friend of the People.]—The alley between Oakley boulevard and Claremont avenue, from Harrison street to Polk street, is in terrible shape. No ashes or garbage have been removed since last fall, making a most unsanitary place to live anywhere near there. The ashes are piled in heaps that hide the fences. Cannot more regular service be furnished here? R. H. B. The writer complained of was cleaned on Feb. 27. Service was interrupted for ten days on account of a strike.

THOMAS H. STERN, Superintendent of Streets.

ALMOST COUNTERFEIT.

Chicago, March 5.—[To the Friend of the People.]—When I got off the car there is not a single light from Ashland avenue until Loomis street, which is four blocks, and it is very dark walking along Fifty-second street. Anything you can do to prevent a recurrence of the murder of Mr. Burr, sentimentalism amounting to stamping, sniveling sally is responsible for such a creature as this to be continually in the limelight, and it is high time now that something should be done to prevent a recurrence of the murder of Mr. Burr. I suggested at the time her case came before the juvenile court that she be given a psychopathic test by Dr. Hickson or some other qualified psychopath and predicted that such test would disclose an aggravated case of dementia praecox. The sly and cunning displayed by this girl during her trial was repeated in her conduct at the House of the Good Shepherd, and she was able to "put it over" on the good sisters in the same manner that she put it over the jury, and it is only a wonder to me that she did not commit another murder day before yesterday was revealed. Her conduct proved conclusively that she is a menace to the community and should be placed in some institution under restraint. The well meaning but misguided individuals connected with the juvenile court who assisted in the acquittal of this creature of the underworld charge would do well to look out for their own safety, for this type knows no gratitude or sentiment when the disease brain is working for freedom. She is still a ward of the juvenile court, and again I ask why is she not given a psychopathic examination, and if found mentally deficient to such a degree that she is a menace and a danger have her placed in the proper institution for one of our asylums for the insane. This type, while displaying intelligence at times and an apparent desire to lead a good life, must by reason of the affliction break loose sooner or later, and it is only a question of time and opportunity in her case until she will repeat her act. I agree with Judge Olson, Dr. Hickson, Judges Jarecki and Trude and others that an institution for the confinement of morons, half-wits, and the mentally deficient is the only salvation for society and wish to commend your attitude on the subject. EUGENE L. MCCARTHY, Former Assistant State's Attorney.

FROM A FRIEND OF THE UNIVERSITY.
Chicago, March 10.—[Editor of The Tribune.]—According to this morning's Tribune, the position of president of the University of Illinois is vacant. The most famous college president in the world will surely be a job. Why should the position of Woodrow Wilson for this position? Ex-President Taft became a professor in a law school. Surely the University of Illinois, with 5,000 students and the most brilliant prospect of any school on earth, is an institution worthy of the best efforts even of W. W.

J. M. C.

ANOTHER LITTLE BROTHER.
Charleston, Ill., March 5.—[Editor of The Tribune.]—The story of Armenia is the most tragic in the world's history. A great wrong has been committed! It is both the duty and the privilege of the great and the powerful to right wrong.

Today the United States of America

ing to one another we cannot hear of it heard unless we speak or are spoken of in unnatural tones.

If there have been no other similar cases in the neighborhood, and this is a new, you could probably have it explained. TRIBUNE LAW DEPARTMENT.

CROWN POINT'S REPUTATION.
Chicago, March 5.—[To the Friend of the People.]—A Chicago law firm, with a Chicago woman 44 years old, was married. The woman was previously married, but when the clerk put the question to her she denied she was married before. She divorced her husband about six months ago in Chicago. Both parties are now residing in Chicago. Is this marriage legal? Can it be annulled, or must said parties through a divorce court be separated?

1. Not in this state.
2. Yes.
3. We recommend that an annulment be secured.

GOODS OVERVALUED.
Chicago, March 5.—[To the Legal Friend of the People.]—How much, any, personal property is exempt from taxation to a married man? I received notice from the county collector that a valuation of \$150, equalized by his board, and charged \$84.40 each year, while I could not get \$100 at home sale for all my personal belongings.

2. What shall I do in this case?
1. None.
2. Pay. If you wish to guard against similar cases next year, inquire at the assessor's office in June and file objection.

TRIBUNE LAW DEPARTMENT.

THE SEITHAMIER CASE.
Chicago, March 5.—[Editor of The Tribune.]—I am not one of the "I told you so" class, but the present outbreak of Margaret Seithamier only bears out the statement I made in a letter to you and which you published shortly after her acquittal for the murder of Benjamin Burr. Sentimentalism amounting to stamping, sniveling sally is responsible for such a creature as this to be continually in the limelight, and it is high time now that something should be done to prevent a recurrence of the murder of Mr. Burr. I suggested at the time her case came before the juvenile court that she be given a psychopathic test by Dr. Hickson or some other qualified psychopath and predicted that such test would disclose an aggravated case of dementia praecox. The sly and cunning displayed by this girl during her trial was repeated in her conduct at the House of the Good Shepherd, and she was able to "put it over" on the good sisters in the same manner that she put it over the jury, and it is only a wonder to me that she did not commit another murder day before yesterday was revealed. Her conduct proved conclusively that she is a menace to the community and should be placed in some institution under restraint. The well meaning but misguided individuals connected with the juvenile court who assisted in the acquittal of this creature of the underworld charge would do well to look out for their own safety, for this type knows no gratitude or sentiment when the disease brain is working for freedom. She is still a ward of the juvenile court, and again I ask why is she not given a psychopathic examination, and if found mentally deficient to such a degree that she is a menace and a danger have her placed in the proper institution for one of our asylums for the insane. This type, while displaying intelligence at times and an apparent desire to lead a good life, must by reason of the affliction break loose sooner or later, and it is only a question of time and opportunity in her case until she will repeat her act. I agree with Judge Olson, Dr. Hickson, Judges Jarecki and Trude and others that an

SIMS PICTURES AWFUL COST OF DANIELS' POLICY

500,000 Lives, 15 Billions
Laid to Tardy Tactics.

Washington, D. C., March 10.—Rear Admiral Sims gave the senate naval investigating committee today what he asserted was indisputable evidence that the navy department fell down almost constantly during the first six months of the war.

Numerous messages sent by the admiral to the department during the early days of America's participation and other documents were offered as proof that, despite his urgent and repeated requests that every available vessel be sent to the critical area of submarine activities, the department neither followed his recommendations nor informed him of its plans and policies.

Six Months' Needless Delay.
Six months after the United States entered the war, the admiral said, the department adopted many of the policies he had urged from the first.

The lack of wholehearted American cooperation with the allies from the start, the admiral said, resulted in prolongation of the war until November, 1918, when it could have been ended in July; needless sacrifice of 500,000 lives; expenditures of \$15,000,000,000 which might have been saved, and loss of 500,000 tons of shipping.

U. S. Admiral Embarrassed.
Explaining that his recommendations many times were made after conferences with the allied naval commanders, the admiral said, the failure of the department to keep him properly informed as to its plans and policies was a source of great embarrassment to him.

LITTLE ARMY MEN BEATEN

Washington, D. C., March 10.—[Special.]—Attempts to reduce the size of the peace time army as provided in the pending reorganization bill failed today in the house.

Several attacks were made on the 200,000 army provided for in the bill, amendments offered by Representatives Denton of Alabama, Jones of Texas, Harrell of Oklahoma and others being rejected.

An amendment offered by Representative Denton, fixing the size of the army at 220,000 enlisted men and 14,000 officers was defeated by a vote of 215 to 179.

Jones Amendment Defeated.
Representative Jones sought to reduce the number of combatant enlisted men as provided by the bill from 250,000 to 175,000, and the number of all enlisted men, including noncombatants, from 250,000 to 205,000. His amendment was defeated by a vote of 215 to 179.

An amendment by Representative Harrell reducing the number of combatant enlisted men from 250,000 to 100,000 met a similar fate.

Representative Caldwell of New York failed in an attempt to create a separate transportation service of the army.

BROKEN WINGS

Chicago Airman Killed by Fall
Off Florida.

Lieut. Maxwell Blanchard.
(Harris & Ewing Photos.)

TWO CHICAGO FLYERS KILLED; 1 BURNS IN AIR

Two aviators well known in Chicago—Lieut. Clinton Stoner of the Chicago-Cleveland mail service, and Lieut. Maxwell Blanchard, son of Mr. and Mrs. Guy Blanchard, 7416 Princeton avenue—were killed yesterday in air-plane accidents.

Blanchard, in the army service, fell while enroute from Cuba to Palm Beach. Mechanician Charles Sims of New York and Kenneth Earle of Montclair, N. J., were killed with him.

Mr. Blanchard, who is editor of the Chicago Garment Review and an assistant attorney general of Illinois, has made arrangements for bringing the body home. Mrs. Blanchard, manager of the women's Lowden commission of Illinois, is on the way home from Minneapolis, where she had been making a series of addresses in the interest of the Lowden campaign.

Stoner was burned to death. The gasoline tank on his plane exploded and he fell near Goshen, Ind. His body is in Goshen, Ind., now, pending word from relatives in Oklahoma.

Stoner was enroute to Cleveland with 250 pounds of mail. He had left the Checkerboard field at Maywood at 8 o'clock yesterday morning. The accident occurred ninety minutes later.

Blanchard was a student at Calumet High school, and a noted athlete. Twice he won the Pullman road bike race, and he held many medals and cups won in other sporting events.

He received a Harvard scholarship when he graduated. He left Harvard in 1918 and enlisted, winning a commission.

Blanchard and Earle had seen service in France, and the former, it is said, had two German planes to his credit.

Stoner had been in the mail service six months, and had many friends in Chicago.

UTILITIES BODY JOLTS BRUNDAGE ON CAR DEMANDS

Politely Invites Him to
Own Traction Hearing.

Attorney General Edward J. Brundage demanded yesterday that the public utilities commission take immediate steps to improve the service given by the Chicago Surface Lines.

Turning back cars outside of the loop, instead of within the congested district, and the use of trailers were advised by the attorney general following investigations by operatives from his office.

Reply by Commission.
The utilities commission issued the following statement:

"The letter of the attorney general reached the commission while it was engaged in a hearing today.

"There has been pending before the commission for several months a proceeding involving both the rates and service of the Chicago Surface Lines. The attorney general entered his appearance in this proceeding some time ago and is a party to it.

"The next hearing in this matter is on Friday of this week at 10 o'clock. The commission at that time will receive any application, or evidence in support thereof, which is presented in the regular way."

What Brundage Asks.
The changes in methods of car operation urged by the attorney general included:

Reduction of the amount of "looping back" of cars downtown, requiring them to turn back in less congested districts.

Installation of trailers to add to seating capacity.

Use of all available cars during the rush hours.

Elimination of overcrowding in the nonrush hours, due to bringing cars into the barns as soon as the peak of the rush hours has passed.

**BERGDOLL LOSES

WITNESS QUIZ**

New York, March 10.—Counsel for Grover Cleveland Bergdoll, on trial before an army court for alleged desertion in evading the draft law, today charged the prosecution with swearing and examining a witness outside the courtroom in violation of court procedure.

Capt. Bruce R. Campbell, Bergdoll's military counsel, made the charge before the court, naming as the witness James E. Romig, former member of the Pennsylvania legislature and a former Philadelphia magistrate.

The court ruled that the prosecution was within its rights in questioning Romig under oath outside the courtroom, as Romig is under subpoena to testify for the prosecution as well as for the defense.

**President on Third Jaunt
in His Open Automobile**

Washington, D. C., March 10.—President Wilson today took his third automobile ride since he was ordered to bed last October. An open car was used, and Mrs. Wilson, Miss Margaret Wilson, and Rear Admiral Grayson, his physician, accompanied him.

PAYNE OPPOSES MERCHANT FLEET UNDER U. S. RULE

Sell Ships as Soon as
Possible, He Urges.

Washington, D. C., March 10.—[Special.]—Permanent government operation of merchant ships was strongly condemned by John Barton Payne, retiring chairman of the shipping board, before the senate commerce committee today.

Natural disadvantages make it impossible for a government operated merchant marine to compete successfully with one privately owned, he said.

Sale of government owned ships as rapidly as possible was advocated by Mr. Payne.

"Keep Inside Program."
The present building program of the board, which will be completed within a few months, should not be extended by congress, he said.

Reviewing the activities of the board, Mr. Payne said that of the original building program of 18,249,500 deadweight tons, 4,856,800 tons have been canceled, 10,644,400 tons delivered, and work begun on the remainder, with the exception of 500,000 tons to be completed by fall. The board's books show a balance of \$288,980,000 earned, he told the committee.

Government operations resulted in a net profit of \$16,493,990 up to last June 30, the chairman said. This revenue does not include unpaid balances due from other government departments, he said, adding that the food administration owes the board about \$15,000,000 and the war department about \$150,000,000.

List of Ships Operating.
On Feb. 1, he said, the board was operating 1,397 bottoms of 5,333,000 deadweight tons, including 1,046 steel cargo ships, 276 wooden vessels, forty-eight tankers, and sixteen refrigerator ships.

A total of 158 companies, he said, held operating charters for vessels owned by the board.

On Feb. 1, 209 ships were listed as "under repair," 135 "laid up for winter," and 1,179 "in actual operation."

Mr. Payne urged that the pending Greene bill be amended so that no ships under American register could be transferred to a foreign flag without the board's consent. He urged another amendment which would turn over to the shipping board the docks and terminals at New York formerly owned by German lines and now under control of the war department.

NATIONAL GUARD OF U. S. TO HAVE TANK BATTALIONS

Washington, D. C., March 10.—[Special.]—In the reorganization of the national guard, the war department announced today, will be included four light tank battalions, one company to be assigned to Illinois, one to Wisconsin and a third to Michigan.

The plan is to have one tank battalion to each corps of four divisions of national guard, battalions to consist of three companies of twenty-five tanks each and the strength of each battalion to be thirty-two officers and 450 enlisted men according to a decision of the secretary of war.

The chief, militia-bureau, is directed to apportion tank units so that they may be utilized to the best advantage in training with the infantry.

ARBITERS DELAY RAIL HEARINGS FOR SHORT TIME

Washington, D. C., March 10.—Negotiations between the railroad executives' committee and the union representatives on railroad labor's wage demands were suspended temporarily tonight.

The date for resumption of the conference was left to the executives' committee. It was indicated the second meeting would not be held before Friday and might not be called until next week.

Each side desired to collect "certain information," the nature of which was not disclosed, before continuing the discussion.

What Advertising Will Win?

This is the era of advertising, because it is the era of Public Opinion.

Public Opinion prevails in merchandising as in politics or in finance. The fame that accrues to trade names of merit through advertising largely determines the measure of success and the permanent profits of the advertiser.

What advertisers will prevail? For a time, perhaps, the largest, for no one has yet approached the limits of appropriations. Ultimately, generalship and experience will win.

Our fifteen years of operation, the caliber of our organization, and our resources, are assets available to advertisers. Write or phone us and an experienced man will call.

NEWBERRY TRIAL DEFENSE NEARING END OF ITS CASE

Grand Rapids, Mich., March 10.—Except for such points as may be developed on the cross-examination of Paul King, the defense today closed its case in the Newberry election conspiracy trial. Only a brief rebuttal is in prospect for the government and judge Clarence W. Sessions told the jurors that the long case was "certainly approaching its end so far as proof was concerned."

King's illness will in all probability prevent a session of the trial tomorrow.

The end of the defense was marked by two unique situations. First Frank C. Bailey offered in evidence portions of the King-Newberry correspondence which were marked as defense exhibits.

Helme Again on Stand.
Then James W. Helme, who told the jury at the start of the trial that he occupied a peculiar situation in the proceedings, testified for himself without assistance of counsel.

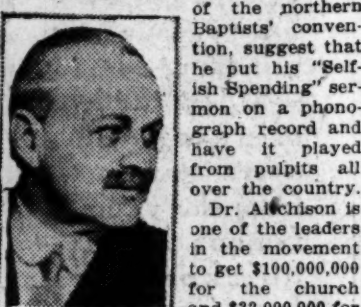

The man whom the Newberry counsel have said was "worked" to run against Henry Ford in the Democratic primary had first government and then defense counsel on their feet objecting to his testimony.

Generally Judge Sessions allowed Helme to follow his own ideas as to what to swear to.

Prompt Self from Diary.
Helme's direct testimony was in narrative form, reinforced by a diary. He emphasized he had no dealings with the Newberry campaign committee and that William B. Mickel, charged with being the committee's emissary, told him that "hustling Democrats of Grand Rapids" had started the movement to bring him into the race. He

PHONOGRAPHS OF U. S. MAY REPEAT TALK ON "SELFISH SPENDING"

Friends of Dr. J. Y. Aitchison, director of the general board of promotion of the northern Baptists' convention, suggest that he put his "Selfish Spending" sermon on a phonograph record and have it played over pulpits all over the country.

Dr. J. Y. Aitchison is one of the leaders in the movement to get \$100,000,000 for the church and \$12,000,000 for the interchurch world movement.

"Selfish spending," he says, "in the crime it is having today, is bound to react on home life and on civilization."

Delegates to the interchurch conference spent yesterday in denominational meetings. Mrs. John Nuveen of Chicago, president of the national board of the Women's American Baptist Home Mission society, was among the speakers.

He never even saw one of the nominating petitions until they were introduced in the trial, Mickel telling him that the same Grand Rapids men were attending to that part of his campaign.

On cross examination Helme said none of his petitions had been circulated in his home town of Adrian. He then pronounced spurious a signature on one of the documents filed at Lansing and in another pointed out the name of a street which he said did not exist in Adrian.

The afternoon session saw also the end of the Newberry-King correspondence, whose reading has taken the biggest part of three court days.

DROP STATE 1920 ROAD PROGRAM; COSTS TOO MUCH

Average Bid Per Mile
Is \$44,000.

Springfield, Ill., March 10.—All bids received this year by the department of public works and buildings for the improvement of roads will be rejected, with the exception of the section north of Chillicothe on the federal aid system, and the sections connecting the Dixie highway and the National Old Trails road. These sections total thirty-nine miles in length.

Abandonment of the 1920 road building program was announced definitely today following a conference between Frank I. Bennett, director of the public works department of highways; Thomas G. Vennum, assistant director; S. E. Bradt, superintendent of highways, and Clifford Older, chief highway engineer.

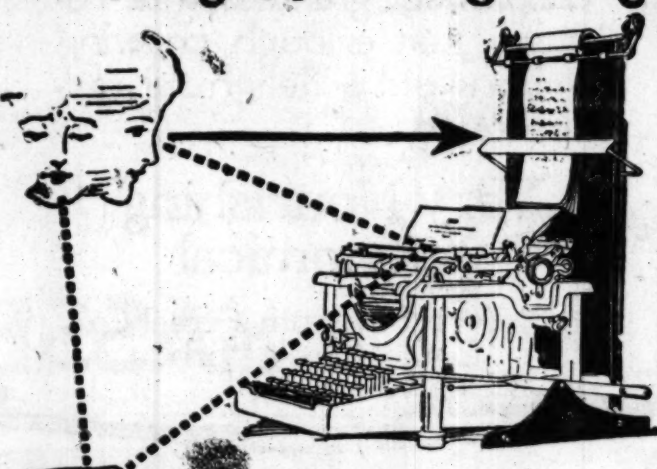

No roads will be built that involve the sale of any state bonds, the entire plan of building 1,100 miles of road this year under the \$60,000,000 bond issue plan having been abandoned. The thirty-nine miles to be constructed will be built with the aid of federal funds.

In a statement, the state officials attribute the failure of the 1920 program to the high bids, the car shortage and the financial situation.

Regarding prices the statement says: "The bids opened by us on Feb. 11, averaged \$42,000 a mile for about sixty miles; the bids opened on Feb. 25, averaged in excess of \$47,000 a mile for more than ninety-eight miles; the bids opened on March 3, averaged \$44,000 a mile for about sixty miles. On many of the sections we received only one bid, thus showing that competition does not in any way regulate the prices."

In order to let any large amount of contracts it would be necessary to sell bonds, the highway officials said, and they say it would be impossible to dispose of them at the present time without a discount of \$6 or \$7 per hundred. This discount, they say, would mean an addition of \$2,500 for each mile of road and serve to increase the cost.

Solved! The Trying Typewriting Triangle

Just as sure as a straight line is the shortest distance between two points, so your stenographer's notes, exposed directly in front of her eyes, are notes most easily, quickly and accurately read. The

LINE-A-TIME Method of Transcribing

Correctly fixes the stenographer's reading area

It has solved the old, trying, typewriting triangle of strain, stretch and stumble—where eyes strain to pick up words from the notes on the desk below and at one side—head and neck stretch to put the eyes in touch with the notes—thoughts stumble in reaching their final destination in the letter.

The Line-a-Time's method is to read thoughts, rather than words, from the notes; it stimulates mental activity; practically eliminates errors; makes for the physical comfort and health of the operator; saves at least an hour waste effort a day, and assures more and better work.

Try one in your office. No obligation to buy, only to try. Just phone Randolph 1159. 60,000 steady users have tried first.

The Sinister Purpose of "Acid-Mouth"

"Acid-Mouth" aims to destroy every tooth upon which it is allowed to work.

Day after day, month after month, year after year, it attacks the enamel, gradually weakening it, and forcing cavities through which the germs enter and consume the soft interior pulp—the very life of the tooth.

PEBECO TOOTH PASTE

Counteracts "Acid-Mouth"

The regular twice-a-day use of Pebecco Tooth Paste counteracts "Acid-Mouth" by stimulating the abundant flow of normal saliva, which is the natural neutralizer of unfavorable mouth acids. Pebecco also helps to whiten and polish the teeth, sweeten the breath, and tone up the gums and the whole interior of the mouth.

Use Pebecco night and morning, and have a dentist go over your teeth twice a year.

Pebecco is sold by druggists everywhere

Retail Trade Acceptances

The merchant gives "plus" service to customers who buy on The Morris Plan of Retail Trade Acceptances—

1. Right price—the merchant receives 100% cash on time sales, enjoys greater turnover of capital, and therefore he can sell quality merchandise at lowest prices.
2. Banking facilities—the customer deals either directly or indirectly with the Chicago Morris Plan Bank and therefore an avenue is opened for the establishment of banking credit—a valuable asset.

The merchant who sells on The Morris Plan of Trade Acceptances does more for his customer than merely sell goods.

These Notes Yield 7% to 7.30%

THREE important factors determine the desirability of a corporation security as an investment, (1) History of the business and its management, (2) Ratio of value of the property to the debt, (3) Ratio of earnings to interest charges.

We are offering Indiana Truck Corporation Serial One to Ten Year notes yielding 7% to 7.30% to the investor according to maturity, which in our opinion combines safety of principal with attractive interest rate for the following reasons:

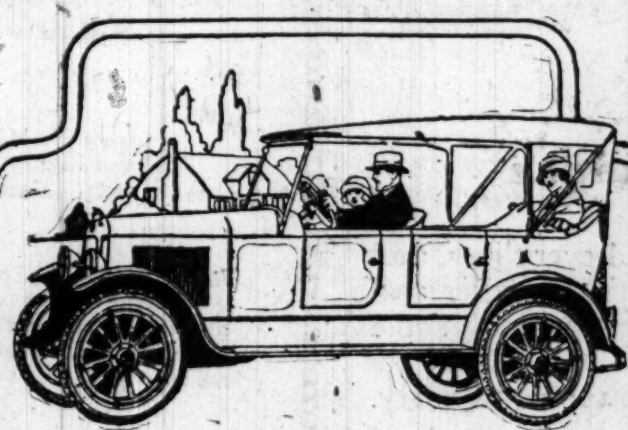

- (1) The Company's successful 22 years' record.
- (2) \$3 of security for \$1 of notes.
- (3) \$6 of earnings against \$1 of interest requirements.

We recommend these notes for investment. We will be pleased to send complete descriptive circular upon request.

Send for current issue of "SOUND INVESTMENTS" describing our offerings in detail

ISKO

Commercial Refrigerating Machines

For Restaurants, Markets, Groceries, Hotels, Hospitals, Country Clubs, Water Cooling Systems

ISKO Commercial Refrigerating Machines, as you will note by the illustration, are simplicity itself—no wheels, belts or valves. They require no attention. They automatically maintain any desired temperature.

ISKO Electric Refrigeration keeps the storage room, refrigerator or water cooling system cooled with dry, constant cold at one-half the cost of ice and eliminates all the uncertainties and inconveniences of ice supply.

There is nothing about ISKO to get out of order; nothing to watch. ISKO does not use ammonia.

ISKO operates by electricity. You simply decide what temperature is needed and ISKO maintains that temperature constantly—day and night, month after month—a final answer to all refrigerating problems.

ISKO works an additional economy because its uniform cold stops food spoilage.

There is a smaller ISKO for household use that can be attached to any refrigerator.

ISKO ordered now can be installed in a reasonably short time. Visit our showrooms, see both commercial and household ISKO in automatic operation. Send for descriptive booklet.

Shipbuilding Plant or Terminal Site FOR SALE

United States Shipping Board Emergency Fleet Corporation
Invites Proposals for the Purchase of
Real Estate and Shipbuilding Plant
Equipped for Building Concrete Ships at
Wilmington, N. C.

Scaled bids will be received until 11 o'clock A. M., April 7th, 1920, by the United States Shipping Board Emergency Fleet Corporation, at the office of the Manager of the Supply and Sales Division, 6th and B Sts., S. W., Washington, D. C., for the sale of the said Corporation's Shipbuilding Plant at Wilmington, N. C., including the tools and equipment.

The property offered comprises about 42 acres used for shipyard purposes with 1600 feet of waterfront, is located on the Cape Fear River within the limits of the City of Wilmington, N. C., with spur to Atlantic Coast Line R. R. This yard has been one of the efficient shipyards in the South Atlantic District for the building of concrete ships of 3500 D. W. T.

Detailed inventory, blueprints and photographs and other data of said shipyard have been filed in the office of the Manager of the Supply and Sales Division, 6th and B Sts., S. W., Washington, D. C., and the same may be inspected by prospective bidders during business hours. Copies of a description of the yard and abstract of inventory may be obtained on application.

Bids must be submitted in duplicate on standard proposal forms and enclosed in a sealed envelope marked "Proposal 3021," to be opened 11 o'clock A. M., April 7, 1920.

Bids must be accompanied by a certified check on a National Bank, payable to the United States Shipping Board Emergency Fleet Corporation, for 10% of the amount bid. The balance of the purchase price is to be paid within two years.

The right is reserved to reject any or all bids. Proposal forms and further information may be secured by addressing

LIBERALS TAKE CLUSTER OUT OF JAPS' BLUSTER

Militarist Policy Forced Out of Siberia.

BY FRAZIER HUNT.
(Chicago Tribune Foreign News Service.)
(By Special Cable.)
Peking, March 4.—Within ninety days every Japanese soldier will be withdrawn from Siberia. Unrest within Japan, possibilities of an industrial boom and a boom in the growth of liberalism make it impossible for Japan to face an unpopular military venture in Siberia. It will withdraw as soon as it is able to do so and save its face. If Japan attempts to remain in Siberia, it must fight the entire population of Siberia backed by probably 100,000 armed revolutionary soldiers supported by the whole Red army of Moscow. It will be nothing short of a war, and Japan does not dare attempt this, owing to military difficulties, as well as to antagonistic public sentiment at home. Once it goes deep into the Siberian war, Korea and China possibly will take advantage of the moment to settle their overdue accounts against Japan.

100 to 1 Shot.
The latest move by Japan seems to be a desperate hundred to one shot. It is supporting Semenov and his band of hybrid Eurasians, Chinese, Koreans and final remnants of the Japanese and Kolchak reactionaries. Supported for the past year by the Japanese, Semenov is squatting in China, the neck of the bottle through which goods from the East cross the Russo-Chinese region. He has been able to garner government gold, steal supplies and levy tribute from everything passing him. For one thing, Semenov possesses 100,000,000 in Kolchak gold, and with this as a backing, the Japanese are willing to finance him and to back him in a last faint chance of checking the tide of bolshevism sweeping from Moscow.

Japan also is trying to pull China through a controlled Chinese military, making a move against Siberia. It will involve it in the fighting, as weak Chinese troops are forced to action against the Russians. Japan will thrill the world by coming to the aid of China against bolshevism. Japan would plant soldiers in Manchuria and along the Russo-Chinese railroad. China and the world knows how difficult it will be to pry out the Japanese, once they have firmly planted themselves in the eastern areas.

Japs Try to Stir China.

Coming to Peking from Siberia, I find Japanese propaganda busy implanting fear of invasion by bolshevik influence into China. Among the older men, unacquainted with the tremendous new influence abroad, the propaganda is gaining some headway. The younger Chinese, particularly students, point out that China is a country of small farmers owning their land, while in the cities there is modern industrial system developed from the seeds of bolshevism into the new ground to take root. China is the last place where a bolshevik revolution is possible.

Japan, however, has a grave land and a quickly built industrial system that has failed to recognize rights and justice to the labor, which the rest of the world has won. In the recent strike in the cement arsenal at Yawata, Japan, men demanded a reduction of working hours from twelve to ten.

"FREE ERIN!"

Chicago Girl with First Sign Fein Flag Made in America.

ALICE DELAHUNTY.

The Rt. Rev. M. J. Gallagher, bishop of Detroit, will present Ireland's case to Americans of Irish birth and ancestry at the eighteenth annual St. Patrick's night celebration, "A Night in Ireland," in Orchestra hall next Wednesday evening, under the auspices of the Chicago Sinn Fein club. The first Sinn Fein flag made in America will be presented to Bishop Gallagher by Miss Alice Delahunty.

UNION HEAD PINS I. W. W. LABEL ON EXPRESS STRIKE

Four officials of the Brotherhood of Railway Clerks called a meeting of some of the striking express handlers and clerks last night in an effort to induce them to return to their jobs with the American Railway Express company. The strikers left the meeting without any indication that they would abandon their fight for a wage increase.

"The commission to be appointed by the president will hear the demands for an increase in wages for you men, and, as this strike is illegal, we ask you to return to work and let the commission decide the matter."

"Sit down, let Milan talk," shouted some of the strikers.

Grover C. Milan, a member of the board of directors, took the floor. He started talking of the agreement recently signed by the brotherhood with the American Railway Express company.

"What do you know about it?" some in the audience shouted.

"Well, I drew it up," Milan returned.

They then called on Vice President H. B. Odell, who also was shut off. They called for Abbott again, then a free for all discussion started, with ten men talking at once.

Abbott said the leaders of the strikers used I. W. W. tactics in calling the strike.

Officials of the company asserted express was being moved at a rapid rate, but declared the embargo will continue until all congestion of depots is cleared up. They claim a number of the strikers have returned and that the express business is moving right along.

WIFE NO. 2 FREE, NO. 1 SUES AND NO. 3 MAKES BOW

Being the Love Flights of a War Aviator.

The marital troubles of Lieut. Lewis A. De Vore of the aviation service are being settled as rapidly as possible by the courts, but there is still a tangle or two to unravel. Judge McGorty yesterday signed a decree of annulment for Mrs. Hazel Furness De Vore, vaudeville actress, and almost immediately afterward her attorney, Leon A. Berensnak, filed a second suit for divorce on the part of Mrs. Hazel Allen De Vore of 1361 East Sixty-fourth street, the aviator's first wife. The attorney said he had just been informed there is a third wife.

"To the One I Have Loved"

Numerous letters filled with avowals of undying love were entered in evidence yesterday by Mrs. Hazel Furness De Vore. One, written the night before De Vore took his first flight across the German lines, indicates that all was not well between him and wife No. 2. It reads:

"To the one I have loved:

To love and not to have

Is the lesser of the evils.

But to love and lose is the curse of hell.

"And I feel cursed—yes, burned. My heart, my brain, last night must have been set afire, for I went away when everything was red and every one was in pain.

Love on the Eve of Battle.

"To me you shall always be what I have worshipped—what I have longed for."

"Just a picture for you to think of—a plain, miles long, and at present in the midst of cold, damp rain; a tent, no fire, no chairs, only a cot and a trunk on which this is being written. Here, my dear, have I sat longing for your thoughts and letters."

"I am now well and doing some flying. My flying days are about over, so the major says. I cannot seem to hold the control steady. Why? Because I am always in the balance of 'shall I let go or not?'"

"I am going to try and lose myself to every one except myself, until I can feel like being a man again. Forever yours, L. A."

Says She Still Loves Him.

Mrs. De Vore No. 2 said she still loved her husband, but could not go on living with him when he was married to another woman. Mrs. De Vore No. 1 charged the aviator with desertion.

Missouri Bank Robber Gets 45 Year Sentence

Kansas City, Mo., March 10.—Harry J. Lewis, convicted today of robbing the Union Avenue State bank of this city last October, was sentenced by Judge E. E. Porterfield to forty-five years in the penitentiary. Henry Strohmeier, bookkeeper, and Miss Eva Lathrop, teller, who were in the South Side bank yesterday when an attempt was made to hold it up, were unable to identify any of the men held by the police as the robbers.

PUBLIC SCHOOL ENGINEERS PASS ON STRIKE TODAY

More than 300 school engineers who are said to be in a "mood for a strike" will meet today in the Masonic temple to fix a course of action. If they decide to strike, it will mean the closing of all the schools and most of them probably would have to remain closed until the strike was settled or until the weather moderated.

But before the meeting of the engineers their officers will hold a conference with the finance committee of the board of education and present their demands. In a communication sent to the board of education yesterday the engineers demanded an addition of 10 per cent to their request for a 30 per cent increase made last fall.

The engineers said that their first request, made in October, had been ignored. They had had to go through the heavy winter months, hiring help at twice the old scale on which their salaries were fixed, they said. The board voted to refer the communication to the finance committee. George B. Arnold, chairman of the finance committee, would not say what action the committee contemplates.

If there is a strike an attempt will be made to keep the schools open, according to John Howard, chief engineer. He said he had about fifty men who could be used.

GARRITY TO SPEAK AT BANQUET.

Chief Garrity will be one of the speakers who will discuss "Chicago's Boy Band" at a banquet to be given in Stevens' restaurant, 17 North State street, on March 13, by the Anti-Cigarette league. Judge Jarecki also will speak.

OGLESBY URGES ALL TO AID IN RECRUITING ILLINOIS REGIMENTS

Springfield, Ill., March 10.—Acting Gov. John Oglesby today issued a proclamation in behalf of the recruiting of Illinois regiments for the United States army.

The following named units," he said, "have been allocated to Illinois for recruiting purposes: The 51st infantry, the 52d infantry, the 53d infantry, the 54th infantry, the 18th cavalry, the 3d field artillery, the 11th field artillery, the 318th engineers, and part of the 89th regiment coast artillery corps."

The acting governor calls attention to the vocational training to be obtained in the army and adds: "I bespeak for the agents and recruiting officers of the federal government, the good will and hearty cooperation and support of all state officers, and of the citizens of the various communities, which may be visited by recruiting parties, to the end that this recruiting campaign may produce the results looked for by the war department; that in our social life the uniform of our soldiers and sailors may be better appreciated as the badge of an honorable service in which friends and fellow citizens are engaged, and that the people of Illinois may be able to point with pride in future years to the records of these particular federal organizations composed largely of their own sons and brothers."

A Soft Answer Turneth Away Wrath—

The Noiseless is a perpetual soft answer!

It inspires admiration—not expletives! It makes two smiles grow where only one had difficulty in blossoming before.

Think of the Noiseless the next time you are interrupted by the machine gun staccato of the hammer-blow typewriter.

Douglas name on shoes is his pledge that they are the best in materials, workmanship and style possible to produce at the price. For twenty-six years it has been our practice to sell W. L. Douglas shoes in our own stores with only one profit. This has saved the wearers millions of dollars.

The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the fashion centers of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York.

W. L. Douglas shoes are for sale by over 9000 shoe dealers besides our own stores. If your local dealer cannot supply you, take no other make. Order direct from the factory. Send for booklet telling how to order shoes by mail, postage free.

CAUTION—Insist upon having W. L. Douglas shoes. The name and price is plainly stamped on the bottom. If it has been changed or mutilated, BEWARE OF FRAUD.

W. L. DOUGLAS STORES IN CHICAGO:
19 South Dearborn Street (and Market) *608 West North Avenue *6302 South 135 West Madison Street *1265 Milwaukee Avenue *Halsted St.

Stores marked with a * carry complete lines of W. L. Douglas shoes for men, women and children.

OPEN SATURDAY EVENINGS

"SOME" CIGAR VALUE!

If you are "fed up" on ordinary cigars, compare them in size, quality and Price with Portinas. The answer is good news for your pocketbook and smoke-satisfaction for you.

Fragrant and mild. Made from Porto Rican leaf grown on our own plantations, carefully selected and hand-rolled. A wonderful value. Try a Portina today. Look for the band—put there for your protection.

FIRST CLASH OF MAROON VS. PENN HERE MARCH 22

Crowded Gym Certain for College Basket Game.

The first game of the title basketball series between the University of Chicago and the University of Pennsylvania will be played at the University of Chicago gymnasium on the night of March 22. The two universities agreed on this date after telegraphic communication yesterday. The second game will be played in Weightham gymnasium, Philadelphia, Thursday night, March 25, and if a third game is necessary the two teams will play off the tie Saturday, March 27, probably in the gymnasium of Princeton university.

Under the plans announced yesterday for the disposition of tickets, only those who have affiliations with the university will have a chance to get into the gym for the game here.

Swamped by Ticket Bids. Coach Pat Page said yesterday: "Requests for tickets have already swamped us, and we have had to draw strict rules for the allotment of tickets. We are being criticized for not holding the game in the Coliseum or one of the large armories, and I am confident that with a 15,000 seating capacity we would still turn away droves. "The game is purely a university affair. We are not trying to make money, and reserved seats will be sold at the price of \$1.50, just 50 cents over the regular charge for conference games.

Rules for Ticket Sale. "The rules for the seat sale are these: All main floor seats will be reserved and sold at \$1.50. Each student with a season book for all athletic contests will be allowed to buy one ticket, and every man who has won a 'C' can buy two. The remainder of the main floor will be allotted to the faculty and alumni members who have been regular subscribers for season tickets. This will accommodate 2,000 and 1,000 more will be allowed on the running track at the general admission price of \$1. "The same arrangement will prevail at Penn. There will be no complimentary tickets for members of the athletic department or even players on the squad."

Illinois Track Team in California Dual Meet

Urbana, Ill., March 10.—[Special.]—The Illinois track team will journey to Berkeley, Cal., for a dual meet with the University of California April 3. The Illinois team, fifteen strong, will depart March 27. Permission for the trip has been given by the council of administration. The team will be accompanied by Illinois athletes who have been invited to California.

Valpo Gets Harvard Game in Place of Notre Dame

Cambridge, Mass., March 10.—The Harvard football eleven will play Valparaiso (Ind.) university at the stadium Oct. 9, it was announced today. The date was left vacant by the cancellation of a game scheduled with Notre Dame.

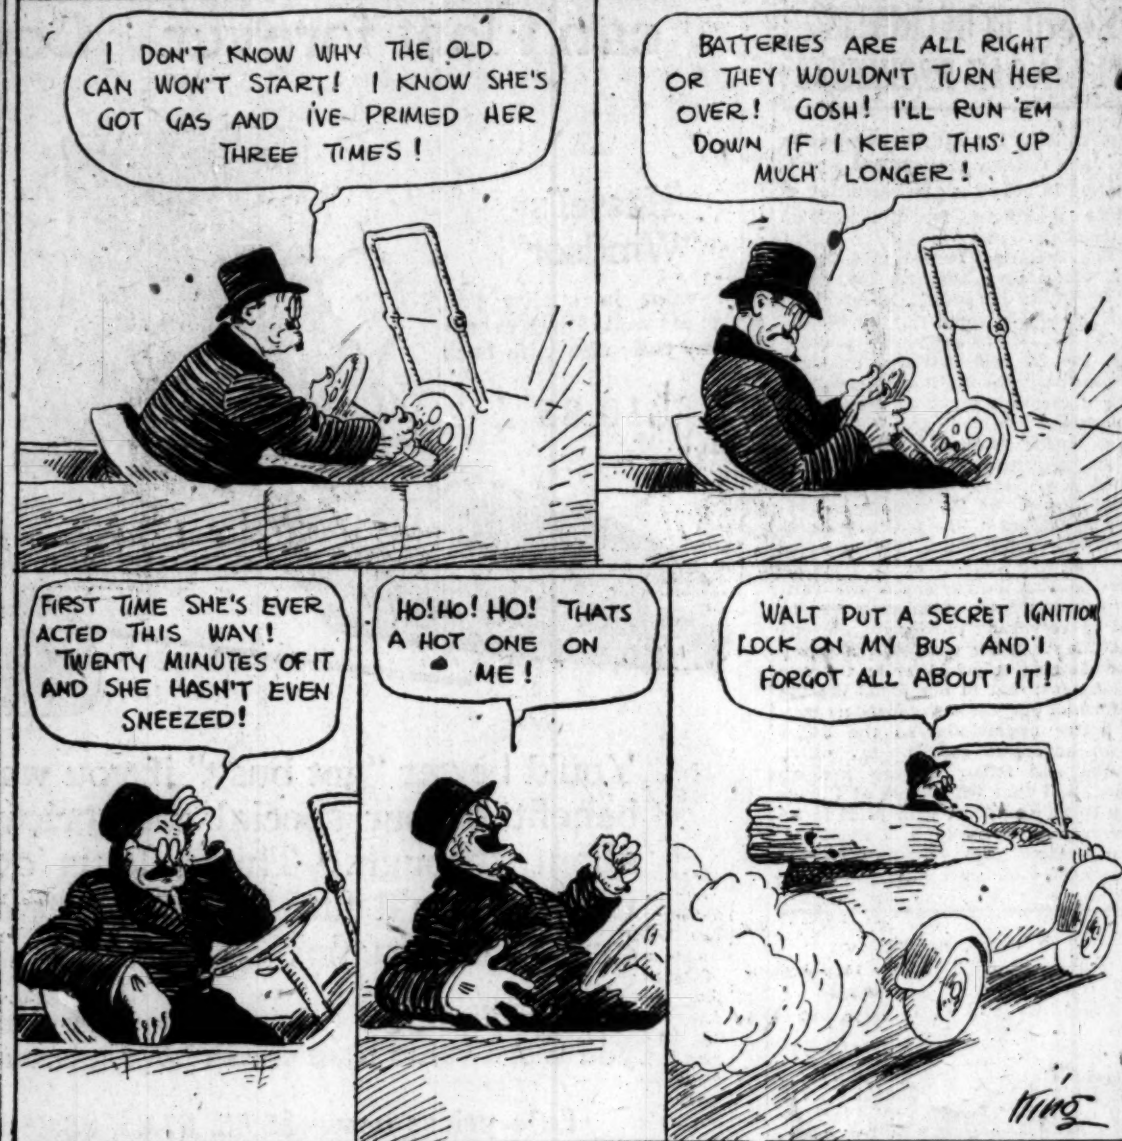

Linow Is Working Hard; Hopes to Beat Zbyszko

Realizing he has a chance to step into the front ranks of the heavyweight class if he defeats Stanislaus Zbyszko at the 23rd regiment armory next Thursday, Jack Linow is working hard to improve his wind and endurance. The Russian is doing considerable road work every day. While Linow is training and wrestling with his partners, Zbyszko is getting into shape by wrestling every night. He will not take part in any matches after Saturday.

DOWNER KNOCKS OUT MULLIN. Cincinnati, O., March 10.—Bryan Downer of Columbus knocked out "Hop" Mullin of Muncie, Ind., in the fourth round of a scheduled ten round bout here tonight. The men are welterweights.

PENN STATE DEFEATS YALE. New Haven, Conn., March 10.—Pennsylvania defeated Yale, 44 to 18, in an intercollegiate basketball game tonight.

GASOLINE ALLEY—DEAD!

Pugilistic Pointers

WITH a \$15 top, and ranging down to \$3 for the lowest priced duets, Toledo promises to set a new American record for battles of the "wre ones" when Jimmy Wilde, British flyweight, and Frankie Mason, American titleholder, clash in a twelve round bout tomorrow night. The biggest previous gate was set in Milwaukee, when Wilde and Jack Sharkey recently boxed before a house of something like \$19,300.

The Toledo scrap of necessity must draw big coin to clear the overhead, for Wilde is guaranteed \$10,000, while Mason's end is \$5,000. The bout is to be held in the Toledo Coliseum, which will seat 3,500 people, and will be twelve rounds, to a newspaper decision.

Joe Burman after a layoff is going into action Monday when he steps with Pekin Kid Herman in a ten rounder at Peoria.

Ducats for the Mitchell-Jackson bout in Milwaukee next Monday arrived in Chicago yesterday, but in a much smaller gub than usual. Seems the pastebards are going so fast in the Cream City that Tom Andrews is afraid he won't have enough to go around. Al Bloom, who will handle the local sale, received something like 200 tickets.

Teddy Murphy to Clash with Texas Kid Tonight

Teddy Murphy, local lightweight, under the management of Ike Bernstein, will meet Texas Kid in the main bout of Al Sworth's boxing show at South Bend tonight. Murphy has prepared for this contest under the tutelage of Packey McFarland, who will be in Teddy's corner tonight. Young Ellinwood of Fort Wayne, who has been helping Frankie Mason prepare for his bout with Jimmy Wilde, will meet Sailor Ritchie in the eight round semi-windup. Joe Berry of Chicago will meet Eddie Welsh of South Bend in one of the preliminaries, while South Bend talent will be used in the other.

Martin Slams K. O. on Riley in First Round

Kalamazoo Mich., March 10.—Bob Martin, heavyweight champion of the A. E. F., scored a technical knockout over Jack (One Round) Riley of Fort Wayne in the first round of a scheduled ten round battle tonight.

SHEPPARD IS FELLEED NINE TIMES BY FITZ, BUT WEATHERS SCRAP

Tribune Decisions

Decisions of Tribune fight representatives are:

At Detroit—Eddie Fitzsimmons beat Johnny Sheppard (10). Matt Brock knocked out Babe Steele (5). Tommy Robson beat Joe Chip (10).

At Cincinnati—Bryan Downer knocked out "Hop" Mullin (4).

At Kalamazoo, Mich.—Bob Martin knocked out Jack Riley (1).

At New Orleans—Joe Russo and Sailor Blaque, drew (15). Jimmy Blute beat Young McGovern (10).

Detroit, Mich., March 10.—[Special.]—Johnny Sheppard, British lightweight champion, took one of the worst beatings ever administered in a local ring, but won the admiration of the crowd by wonderful gameness.

No less than nine times in the ten rounds Sheppard fell to the floor. Twice he fell from exhaustion, but seven knockdowns were the result of Fitzsimmons' terrific left hooks and uppercuts which crashed against the English fighter's jaw.

In the seventh Sheppard staged a momentary rally, landing several solid smacks on the New Yorker's chin. Five times Sheppard went to the floor in the eighth, but gamely struggled to his feet each time.

Babe Picato of Chicago, who met Matt Brock of Cleveland at 130 pounds, proved a chopping block for the latter, and was sent to dreamland in the third round. In the second Brock felled him four times, the bell saving him for the time being. After pummeling Picato severely in the third, Brock landed a left to the jaw toward the close, and Babe went down and out.

In ten rounds of hard fighting Tom Robson of Malden, Mass., was given a popular decision over Joe Chip of Newcastle.

Billiard Notes

COUNTING seven points while Jim Shea went scoreless for eight innings, Augie Kleckhefer won a great game from the Ace player, 60 to 48, in eighty-three innings in the Chicago league series at the Kleckhefer room. The victory kept Kleckhefer in the top of the race. Shea ran 9 in the twenty-third inning, getting high mark for the season. This gave him a lead of 23 to 14, but Augie gradually cut this down, and near the finish Augie had 50, and Shea, who plays 50, also needed ten. Shea looked like the winner until Augie ran 6 in his eighteenth inning and needed one point to two for Shea. Score at each tenth inning: SHEA.....8 12 24 28 36 40 45 48 48 50 KLECKHEFER 5 13 17 23 33 43 52 59 60 60

Teddy went into second place in the Chicago league by defeating Klatscher (52), 50 to 38, in ninety-eight innings, at Schumann's, getting high run of 6. Klatscher's best run was 4. Tonight Steffanow will play LeDra at Casino, and Macin meets Capron at Leffingwell's.

In the classic billiard tournament at Musgrave's defeated Ewiler, 100 to 94. Barrett (100) and Whale (170) play tonight.

Larrabee "Y" Grapplers Take City Team Honors

Victories by Bertl, in the 125 pound class, and Klauk in the 145 pound, gave Larrabee Y. M. C. A. the city "Y" wrestling championship honors with a total of 26 points. West Side had 19, Hyde Park 18, and Central 10. Luitze had previously won the 175 pound and heavyweight championships, giving Larrabee four titles. The finals bouts staged last night at Sears, Roebuck gymnasium resulted as follows: 125 pound class—Won by Bertl, Larrabee; Compeller, West Side, second; Holzman, Hyde Park, third. 145 pound class—Won by Klauk, Larrabee; Wolf, West Side, second; Reuss, West Side, third.

MARSHALL TEAMS PLAY ALUMNI.

Marshall alumni will oppose the school basketball teams in heavy, light, and bantamweight games at the school gym tomorrow at 7 p. m. Capt. Dixon and Moore of the Illinois A. C. probably will play with the alumni.

MISS CUMMINGS PLAYS TODAY FOR BELLEAIR TROPHY

Chicago Woman to Meet Mrs. G. K. Morrow.

Belleair Heights, Fla., March 10.—[Special.]—Mrs. G. K. Morrow of the Engineers' club will meet Miss Edith Cummings of Chicago in the finals for the women's championship of Belleair. Mrs. Morrow defeated Mrs. G. Henry Stetson of Philadelphia today, 3 and 2, making her best score of the tournament. She was around in 32 after a rather poor start. At the eleventh hole she was one down, but played finely from that point in.

Mrs. Morrow won the championship here in 1918, but last year played little golf on account of sickness. Miss Cummings did not have to play today, as her opponent, Mrs. E. S. Bayard of New York, was called home and defaulted her match.

In the second eight Miss Florence McNeely of Philadelphia defeated Miss Marion Hanahan of Birmingham, 7 and 6. Miss Bernice Wall of Oakbrook, Wis., defeated Miss Agnes Morrison, Pittsburgh, 4 and 3.

Chicago Athlete Stars on Harvard Track Team

Cambridge, Mass., March 10.—[Special.]—George Krogness of Chicago has won four firsts in the annual winter track carnival at Harvard and has a chance to win a fifth tomorrow. Krogness won the high and low hurdles today, and earlier in the week captured the high and broad jumps. He is expected to be the mainstay of the Harvard team this spring.

Peoria Mayor Rolls First Balls in A. B. C. Tourney

Peoria, Ill., March 10.—The twentieth annual international tournament of the American Bowling Congress opened here tonight with E. N. Woodruff, mayor of Peoria, and Robert W. Brown of Louisville, Ky., president of the association, welcoming the visiting bowlers and rolling the first balls. The annual meeting of A. B. C. delegates will be held Friday instead of Sunday. It was announced tonight. Twenty-five Peoria five men teams competed on the opening program.

SHOTS ON THE LINKS OF JOE DAVIS

THE recent story that Babe Ruth, the champion home run batter, swishes a fifty-four ounce bat led to discussion among several golf professionals yesterday. Of recent years most pros have advocated the use of light clubs, but it developed yesterday that Babe Mitchell, who is one of the mightiest swingers in the British Isles, uses a driver weighing sixteen ounces.

He also uses a palm grip and stabs his putts, which would indicate that it is the man behind the club rather than the club. The subject of the length of clubs also showed a big variance, as Ben Sawyer, the veteran Britisher, who is 5 feet high, swings a driver measuring forty-six inches, while Jim Barnes, who has great length of reach, can get along with a forty-two inch club.

Let the eagle scream. Alec Cunningham, the Scotch professional, returned yesterday from a trip home and left for his new position at St. Joe, Mo. Alec played quite a lot in Scotland and England, and said he found that American made balls were more reliable than those of the same brand made across the water.

Alec made two suggestions for simplifying the qualifying round for the Professional Golf Association tournament at St. Joe. It is played in sections, and as the prizes are most of the contestants are out there traveling and hotel expenses. He suggests a qualifying round at Pittsburgh for players in the east and another at Chicago for those of the middle west. His second idea is to have the first thirty-two players in the national open championship at Toledo eligible to play in the F. G. A. championship.

Ben Knight, who visited Scotland recently, left yesterday for Winona, Minn. George Turnbull, the Middlesex professional, who has been abroad, is due this week.

Open Shooting Tourney at South Shore Sunday

Announcement was made yesterday by L. A. Bell, chairman of the trap shooting committee of the South Shore Country club, that an open tourney will be held at the south side club Sunday. Four events on the program include 25 targets, 16 yards; 50 targets, distance handicap; 100 targets, 16 yards; and 25 pairs of doubles. Shooting will start at 1 o'clock and entry can be made at the traps.

Ray Takes 1,000 Yard Race in Trenton Meet

Trenton, N. J., March 10.—Jole Ray of the Memphis A. C. won the 1,000 yard invitation race, which proved the feature of the American Legion games tonight. Bob Crawford, the Lafayette star, and W. Irwin, University of Pennsylvania, opposed the Illinois athlete, but Ray romped home in front, by seven yards, with Crawford second.

Proves That Nature Surely Is Wonderful

"THE VERY IDEA."

Produced by Metro.
Featuring
TAYLOR HOLMES
and
VIRGINIA VALLI

By Mae Tinée.

This picture—made from a play—is of a eugenic turn of mind. It furnishes food for thought for those who are childless, and who care to think, while proceeding merrily on its way. And this is its earnest in a nutshell: Before adopting somebody else's baby, try the fresh air and exercise cure.

Mr. and Mrs. Goodhue, more or less anemic city folk, go to Florida. The Goodhues—especially Mr. Goodhue—are baby crazy. Mr. Goodhue fills the house with toys, and Mrs. Goodhue mourns, but no little Goodhues arrive to bless their home.

Hearing that the disconsolate young couple contemplate adopting a baby, antecedents unknown, from an orphanage, a bachelor uncle conceives a brilliant idea which concerns itself with the marriage of the pretty and healthy Goodhue maid, Nora, and the stalwart, personable, and cleanly Goodhue chauffeur, Joe.

Joe and Nora want to marry, but so far have been prevented from doing so by lack of funds. The bachelor uncle would finance an immediate marriage; object, a health child, to be adopted by the Goodhues.

How the idea works out I shall let you see for yourself. What I am sure of is the fact that you will like Mr. Holmes as the distraught and at times most idiotic Goodhue, and will greatly admire Miss Virginia Valli—formerly with Essanay—as his wife. And, if I'm not mistaken, Nora and Joe will appeal to you strongly.

Also, you'll laugh quite a bit during your observation of "The Very Idea."

VIRGINIA VALLI

She Was Formerly with Essanay and Makes a Most Pleasing Return to the Screen in Metro's "The Very Idea."

(Lewis Smith Photo.)

DORIS BLAKE'S ANSWERS

New Girl Comes to Town.

"Dear Miss Blake: I am 16, a sophomore in high school, and very interested in a sophomore boy. Last year he took me home from several parties, but now a new girl has come to town and taken him away from me. I don't think he likes her very well, and I think he would be much happier if we went together again. Please advise me as to what would be the best course to take to prove this to him."

"MADONNE H."

He must like her a little bit, Madeline, or he wouldn't choose her company, because he would be in no way bound to go with her.

BEAUTY ANSWERS

BY ANTOINETTE DONNELLY.

MADONNE: GOING WITHOUT one meal a day is a good plan for reducing, and has been practiced successfully by a number of women. If you get too awfully hungry, take an apple, or an orange, or half a glass of orange juice at noon to tide you over, and drink a lot of water.

A Friend in Need

Sally Joy Brown

I want to be the medium through which the friend in need and the friend in need may be brought together. It may be you have some discarded article which has not outlived its usefulness. It will make some less fortunate one happy, and you will feel good about it. If you know how to get about it, write to me and I will be only too happy to be services to you. Please write on one side of the paper. When information is wanted by mail, a stamped, addressed envelope should accompany the request. Please send one to the address of the applicant and send direct.

They're All in Need.

"Would you please ask some kind friend to help this poor family? I am a neighbor and I do all I can, but I have a family of my own to care for. The husband has heart trouble and has had the flu, so he is not working. The wife and two children also had it, and one of the children had the measles, which left her lame in one foot and leg, so the little money they had went to the doctor. If I could have an old car, which she did not need any more, and some old clothes, size 38 or 40, they would be grateful, and perhaps the mother could then go to work for a while. They live on the first floor flat, and the floor is so cold that the doctor said they ought to have something on it for the children. Mrs. L. H."

Nothing further is necessary, I know, in explanation of this appeal, which is so sincere, generous, and urgent.

Brown Bread and Cheese

A combination of tastes that the human palate cannot resist. The nutty wholesomeness of old fashioned baked brown bread crowned with a generous spread of "PHILADELPHIA" CREAM CHEESE—rich, pure—always fresh, always delicious.

How to Order Clothide Patterns.

Write your name and address plainly on folded lines, giving number and size of such patterns you want. Inclose 13 cents in stamps or coin (wrap coin carefully) for each number, and address your order to Clothide, Chicago Daily Tribune, Chicago.

Note: Clothide patterns are made in New York exclusively for THE CHICAGO DAILY TRIBUNE. They are perfect in fit, up to date in style, and the easiest of all patterns to use.

EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter published in "The Tribune's Embarrassing Moments" Editor, Chicago Tribune. Write on one side of the paper. No manuscript returned.

Almost a Wreck.

We were going to a Christmas party in typical Christmas weather. The funny little trolley car in the variety town was crowded when our bunch got on. It was my lot to occupy a seat in the front facing all the passengers. The car moved slowly up the steep grade just above the railroad which crossed the trolley tracks at right angles. We stopped. The brakes would not take hold. The sand did not avail. Slowly we slid backwards down the hill until we struck the railroad. With startling suddenness I shot forward and landed with my head in the pit of the stomach of my football hero, the captain of the variety team. T. K.

Tribune Cook Book

BY JANE EDDINGTON.

Temperature for Boiling Eggs.

It is an axiom of the cooking schools that the white of egg begins to coagulate at a temperature between 134 and 149 degrees Fahrenheit. Some of the old experts said the same thing in part when they said that an egg boiled a few seconds beyond its time became not only indigestible (not possible to digest a part of it) but an unpleasant food. The temperature on the outside of an egg in boiling water when it is first put in, as by the old method of boiling an egg, is perhaps from fifty to seventy degrees higher than that of the center of the egg, even after three minutes of cooking.

An egg put over the fire in cold water and kept over for twenty minutes, the water heating gradually, will be cooked through and through when the water reaches the boiling point, or nearly to that point, and will be safely and sanely cooked.

Eggs can be cooked in a temperature a good deal below boiling, and our scientists are learning more and more

HOTBEDS

BY FRANK RIDGWAY.

Hotbeds are becoming more common every year as a means of starting early plants in sections where there is a late spring. Home gardeners have found the hotbed of particular value around Chicago as a means of protecting plants from cold, damp winds and low temperatures and to prevent serious damage by gases and smog from the city before the furnaces are closed.

Seeds should be planted by the middle of this month. The size will depend on what the hotbed is to be used for. Most gardeners build them in sections six feet square. New sections may be added when needed. The object is to imitate summer conditions as nearly as possible. To do this, a frame must be built to hold the warm air in and keep the cold air out. The plants must have sunlight, and a glass sash on the frame is used for this purpose.

The frame may be built on the surface or in a pit. In this section, where low temperatures often occur the latter of March, the pit type will be more satisfactory. Dig the pit six feet square and about thirty inches deep, and build the frame inside. This consists of lining the pit with boards. The upper part of the frame and the sash is about all that is exposed above the surface.

The pit is then filled with about twenty-four inches of fresh manure, which generates the heat. Scatter a two inch layer of leaf mold on the surface of the manure, and on top of this a four inch layer of fine garden soil for the seedbed. The front side of the frame should be lower than the back, so the bed will receive the full benefit of sunlight.

Success depends to a great extent upon the manure. It must be fresh, and horse manure is preferred. Mix it with one-third straw and pack it in the pit firmly by tamping. The leaf mold is required for their perfect cooking. Some manure will be needed to pack around the frame above the ground. This is advisable during the first two weeks. If possible, the bed should be built near a solid wall or protected by means of a windbreak made of boards.

definitely how harmful to foods are high temperatures, higher by far than required for their perfect cooking. Cooking teachers have been telling their students these many years that eggs should never be cooked in water that makes them hot merly about. They say grow tough, horny, and indigestible in boiling water. If you have tried that wrong fashion you may have lost part of the egg, because the violent heat cracked the shell at once, as it would crack anything of similar composition, say marble.

If all people knew

that the real merit of a dentifrice—and the safety of it—lay in its cleansing and polishing qualities alone, even more Dr. Lyon's would be used.

Outside of the dentist, Dr. Lyon's has done more for the cause of good teeth than any other agency. This is not only because it is the oldest, but because it has always kept on safe ground—it contains no drugs.

Clean the teeth and you remove the leading cause of mouth acidity. Polish them and you clear away films. That's the acknowledged and supported practice of Dr. Lyon's—and that's safe for all people.

TEACHERS URGE SINGLE TAX AT CON CON SESSION

Springfield, Ill., March 10.—(Special.)—David Felmley of the Illinois Normal school frankly admitted tonight that he favors the single tax system. He thought it was impracticable to apply it at once in Illinois, but suggested its gradual application.

Both he and Miss Margaret Haley, who read a declaration of the American Teachers' federation for the single tax, were questioned until midnight.

Felmley quoted a tax commission of Gov. Oglesby saying that the present system of taxes "is a school of perjury promoted by law." The teachers charged that land tax values downstate

are notoriously low, and that the average pay of teachers is entirely inadequate. At the same time the United States government collected \$400,000,000 in taxes for the war from Illinois.

"We urged more money for the schools and have suggested certain means for getting the money," said Robert C. Moore, secretary of the State Teachers' federation. "Any other equitable plan is satisfactory to us."

Predicts Big 1922 Deficit.

Supt. Mortenson of Chicago predicted that city's school deficit will be \$15, \$27,000 on Jan. 1, 1922.

Supt. Engleman of Decatur told of the employment of unprepared, incompetent, and unfit teachers to keep the schools open.

Supt. Potts told of the forced closing of schoolrooms in East St. Louis because of the lack of teachers.

Fannie Spatts Merwin told of onedistrict in Mason county which had not had a school in thirty years until she became their county superintendent of schools.

Felmley urged that a larger distributive state fund be provided. The last legislature raised it to \$6,000,000. This

he said, makes an average of \$180 per teacher in the state and he suggested that it should be \$350.

Revenue was the big point in the day devoted to the teachers. The delegates showed a keen sympathy with every suggestion to promote the interests of the children and the teachers, but they resented the principal argument of State Supt. Blair and some county superintendents.

Want School Chiefs Elected.

They urged the political question of having superintendents elected.

"You have been in office fourteen years," said Delegate Hull to Blair, "and you are not afraid of your tenure of office under the elective system are you?"

"No," replied Blair. He made a long argument for election, but finally said that he would not object to appointment if other state officers are appointed. Blair further pleaded for more money.

Hull intimated by a question that Blair had not aggressively asked additional funds for the schools since 1908. Delegate Green got Blair to admit that he was not in favor of a budget

CHURCH LEAGUE ASKS CONCON FOR BIBLE IN SCHOOLS

BY THE REV. F. L. GRATIOT.
Petitioning the constitutional convention now in session at Springfield to "require the daily reading of the Bible without comment in the public schools of the state," the 3,000 pastors of thirty denominations of Protestantism adjourned their three day conference yesterday after accepting the appointments of the budget of the interchurch world movement. The closing address was made by the Rev. William Merrill, pastor of the Brick Presbyterian church, New York City. Years ago the Bible was read in

RISE IN PRICE OF GASOLINE IN 1920 PREDICTED

Predictions that gasoline will increase in price during 1920, possibly to 35 cents a gallon, were made yesterday by delegates attending the national petroleum congress at the Congress hotel. Fred W. Lehmann Jr., general counsel for the Western Petroleum Refiners' association, declared that protective measures must be taken if the country is to avoid an oil famine with prohibitive prices.

"The price of 'gas' in England is \$1.75 a gallon," he said, "and a government commission has recommended \$1.45 as a fair price. So you see Americans don't know anything about high prices yet."

Protestants Face Greatest Test.

"The interchurch world movement is the greatest opportunity and the greatest test that has ever come to the Protestant churches," Dr. Merrill said in his closing address. "If we do not make a success of this, the Protestant churches ought to go out of business. The survey of the interchurch world movement has shown us what was wrong with the churches. Outside critics do not know, although they talk a lot about it. We have discovered that our work has been along the right lines, but that we needed to put a little more capital and organization into it. Our methods are sound—

but they are not carried out on as large a scale as they should be.

"Money shows the reality of our profession. The budget of the movement means but \$10 a year for each Christian. This surely is not too much to ask for the great task ahead of us.

"Soon we shall have to build up a real and lasting organization representing all of the churches in the movement. This eventually will be an expression of our unity."

Real Union of Churches.
"This gathering shows that we can unite in the work of our common Master," said the Rev. R. Calvin Dobson, state secretary of the Interchurch World movement, in his final report.

"The county conferences, which meet April 6-8, which you will lead, will further show the possibilities of the real union that exists among the Protestant churches."

The women's training conference, which was held simultaneously with that of the pastors, adjourned yesterday afternoon after electing fifty of their number to direct the county women's training conferences, April 6-8.

3,600 men's woven madras shirts less than present wholesale cost

It is many a day since we have seen such excellent shirts so moderately priced—and present market conditions indicate that it will be long before you will encounter another such opportunity.

Shirts of corded and satin striped woven madras, at

3.35

—in correct spring colors—light and dark patterns.

Well-made, good-looking shirts—the sort to please men who take pride in their appearance. The sizes range from 34 to 17½. Early selection is advised. First floor, Wabash.

Men's shop, first floor, Wabash

Mandel Brothers

Women's suits in spring's manner run the gamut of approved modes

from the mannish plain tailored coat suits to the elaborately embroidered and youthful eton styles—insuring a becoming model for every type and a satisfactory selection for every taste.

Tricotine suits—fashion's favorites—89.50

—superbly tailored, and delightfully appealing in their novel smartness; the most favored of accepted modes. The three styles pictured.

Trig eton suits at \$75

They are of navy tricotine, and have a wide girdle and cash of Roman striped or plain black satin.

Sports suits de luxe, \$150

Superbly fashioned in stunning combinations of plain colored jacket of peachbloom and checked velour skirt. Fourth floor.

Mandel Brothers

"Where costume is held an art"

Featuring a full score of fetching styles in new season frocks—a sale

long planned for women's and misses' profit

Expert buying and close selling account for a sale figure whose moderation is probably quite foreign to your usual experience nowadays: \$33. The frocks are charmingly adaptable for practically any daytime or informal occasion.

Frocks of taffeta, satin, georgette, tricotine, poiret twill or serge—\$33

Styles becoming to misses of 14, 16 and 18 years—and styles to enhance the individuality of mature women. Many of the themes in these frocks have been adopted in the new season's smartest modes. The five styles illustrated above are typical of the charm of the whole collection at \$33.

The vogue of checked and plaid skirts for spring

is readily comprehensible from the two distinctly worthy exponents of the mode pictured.

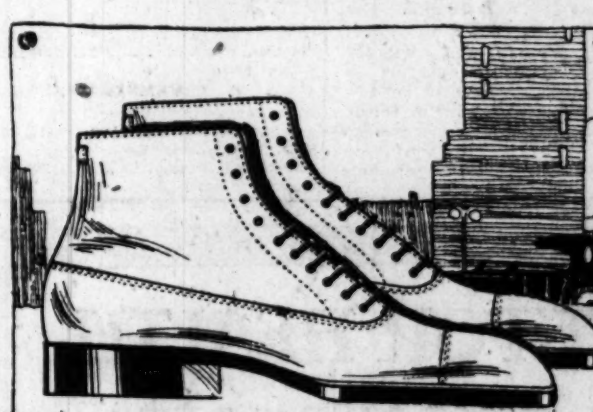

Checked velour skirts

19.75

Plaid velour skirts

—in a variety of smart color combinations, and in new and clever box and side plaid effects. The values are unusual—resulting from the close pricing of a specially bought group.

Shirt shop, fourth floor.

Men's shoes in new shapes designed expressly to fit the low-arched foot

The shoes are made over a new combination last—the upper two sizes smaller than the rest of the shoe—assuring a snug fit at the waist, under the arch and around the heel. The style is illustrated.

In dark tan calfskin at 13.50. In black kidskin at 12.50. Same style in black kid low shoes, 12.50.

Buster Brown foot forming shoes are correct for growing boys

They afford ample room for toes to spread and are constructed of solid leather throughout. Prices 5.50 to 6.50.

Shoe shop, first floor, Wabash

WIDE RANGE FOR PRICES OF GRAIN; CLOSE AT GAINS

BY CHARLES D. MICHAELS.

Grain prices had a wide range and closed at intermediate figures. Net gains were 3 1/4 to 4 1/2 on rye, which showed the best of all on export buying. Corn was 1 1/4 to 1 1/2 higher and oats 3/4 to 1 higher. Lent was 1/2, short ribs 10c, and pork 2 1/2 to 3 1/2 higher for the day.

Light offerings of futures featured the corn market, and while there were many sharp breaks the close was at intermediate figures, with fair net gains. The leading long in March sold freely, having canceled sales of No. 3 yellow to the east at 20 1/2 to 21c.

A break of 1/2 to 3/4 in cash prices, due to the withdrawal of shippers from the market, led to a decline in futures at one time, but there was excellent buying on the break, and the loss was fully recovered.

Canceled Sales to East.

Chicago cash exporters continue to cancel sales as fast as possible, 1,000,000 bu. being claimed to have been bought back in the last few days. Domestic sales of 105,000 bu. of No. 3 whites were canceled at equal to 2 1/2 to 3c over May, track Chicago.

Inability to make shipment was the main reason. Futures fluctuated rapidly with a range of 1/2 to 3/4 and closed firm with corn.

Foreign governments were after rye, a Chicago house having a request for an offer of 1,750,000 bu. direct from Spain. Barley was in keen demand and 2 1/2 to 3c higher, with spot sales at 11 1/2 to 12c. Receipts, 14 cars.

Provisions Have Rally.

Provisions were unsettled, breaking early with hogs and on selling by commission houses that had recently been good buyers. Strength in sterling exchange and grains, however, brought in a good class of buyers, and the finish was at net gains of 2 1/2 to 4c on pork, 2 1/2 to 3c on ribs. Claims that the government was to resell a large amount of mutton and bacon had some effect early. Prices follow:

WORLD'S GRAIN MARKET NEWS

Corn traders who have been bearish are looking for cash prices to work near the futures. They have dropped 4 1/2 to 5c in the last few days, and No. 3 yellow, which was 10 1/2 to 11c over May, was down to 6c over, and was only 2c over March at the close yesterday. It is deliverable at 2c discount. Leading factors that are to make the price of corn from now on are the car supply, the movement and the attitude of farmers, shippers, and industries. Shipping houses were buyers of March corn yesterday against cancellations east.

Bulls in corn and oats remain firm in the belief that all good breaks should be taken advantage of to buy. Bears are constantly looking for factors to make a good running decline.

Elevator interests having 6,000 cars of grain sold to the seaboard are to send a committee to Washington to try and get cars enough to move their grain in the near future.

President L. E. Gales of the Board of Trade, in a statistical review of the wheat supplies, estimates that there is a surplus of 150,000,000 bu. to be carried over July. This is in addition to household supplies.

The Grain Corporation has 5,000,000 bu. of flour on hand, which it proposes to sell abroad on credit, as cash sales are impossible. This statement was made by Julius H. Barnes, wheat director, in his last circular, issued to the trade yesterday. In the last three years the grain corporation's purchases of wheat and flour aggregated over 700,000,000 bu. This buying, he says, has saved the farmers over \$1,000,000,000, which they would have lost had the price sunk under the guarantee basis.

Since the government maximum was removed on corn in the United Kingdom, the Argentine grain has advanced equal to 37c per bu. based on normal exchange, and is now selling around \$1.90 per bu. or 30c less than American. Demand for the latter has improved. Argentine exportable surplus of 500,000,000 bu. is estimated to be in excess of maximum European requirements.

Port strikes at Rosario have spread to Buenos Ayres, and the labor situation is reported as critical at all ports. Around 40 vessels are said to be waiting to load grain at Buenos Ayres.

Missouri March crop report made condition of winter wheat 95, against 94 in December and 90 last year. Increase of corn is expected to increase 15 per cent, oats 8 per cent and hay 6 per cent as compared with last year.

J. H. O'Connor, J. G. Storer, and G. F. Powell have applied for membership and D. S. Stoddard posted his board of trade membership for transfer.

CASH GRAIN MARKET NEWS

Wheat purchases by New York were 10,000 bu. No. 2 hard winter at \$2.50 track N. Y., an advance of 4c. Wheat prices here were unchanged to 5c higher all around. Arrivals 8 cars. Shipping sales of corn were 10,000 bu. oats 20,000 bu. rye liberal, estimates at 500,000 to 1,000,000 bu. in all positions. Cash corn at Chicago 34 1/2 to 35c lower and oats 1/2 to 3/4 lower. Receipts: Corn, 180 cars; oats, 35 cars.

PEAK OF HIGH MERCHANDISE PRICES PASSED

BY EUGENE HECTOR.

The corrective influence of higher interest rates, which first asserted itself in the stock market a few months ago, and of prices followed, may now be definitely recorded as having reached its maximum activity. There is a definite slowing up of the riotous giving of orders without regard to prices or other conditions upon manufacturers, which has been a condition that will soon be set in normal trade reports. It may be asserted with reasonable accuracy that the peak of high prices in merchandise lines has been reached and that recession is on the way.

It is the experience at the banks that merchant borrowers have become uncooperative over the outlook, are seeking counsel as to the prudent course to follow, and are being told that new conditions in the foreign trade situation must be recognized, and that to try to continue business in the inflated war bases will not only prove expensive in interest rates but will also prolong until ultimate losses are realized.

Situation Has Changed.
As late as six weeks ago the average merchant borrower was not looking for relief; he felt confident of his position because anything placed on his counters was a ready sale. Within the last thirty days this has changed.

The caution in the matter of new buying being exercised by retailers is forcing manufacturers in reduced orders and a discontinuance of the policy of what may be designated as open orders. Until a very short time ago the retail merchant was obliged to buy, not at current quotations, but at such quotations as might obtain at the time of delivery of the goods, or six months forward. That policy, which the part of manufacturers was dictated by the need of advancing prices, has now been able to profit by the high price that might be expected to have been attained by the time the goods were ready for the buyer.

Shut Down on Orders.
But now the manufacturer cannot receive such orders. He must accept the price for the future delivery and for a smaller volume of goods. This, it may be expected, will result in accumulations of manufactured stock and competition in disposal of them at price concessions. The banks express satisfaction at the manner in which the merchant is handling the situation. They are not in a position to be able to pass on the price that might be expected to have been attained by the time the goods were ready for the buyer.

Reflected by Stocks.
It may be noted that the stock market has been first to reflect these changing conditions. In time the significance of stock prices will become more understood. Not activity on the New York stock exchange and the trend of prices are not the result of gambling, but are the result of business conditions and sentiment. The stock market is the thermometer that records the temperature of the market. It is not the temperature. Nothing is gained by finding fault with the market, which is merely a record of conditions. It is possible to live in a temperature without an instrument to record it, but the market does.

PAYS \$225,000 CASH FOR WEST SIDE FACTORY
This "Rooster Day" at the Chicago real estate board, Mayor Thompson and Mr. Kelly are scheduled to speak at the 12:45 p. m. luncheon.

Two big west side concerns will enter their quarters as the result of the reported \$225,000 cash price paid by the Hamilton-Kenning Building corporation for the plant now occupied by the Wilson-Jones Loose Leaf company, on the southeast corner of Carroll avenue and Whipple street.

The Hamilton-Kenning Building corporation has leased the four-story building, at 1021-1023, with 100,000 square feet of floor space, to the International Tag company, for twenty years from June 1.

Mr. Hamilton is president of the company and Mr. A. M. Kenning is vice president and general manager. The tag company will triple its floor space by adding the new building.
